Matters discussed in this release may constitute forward-looking statements that may be deemed to be "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements reflect current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. These statements may include words such as "believe," "estimate," "project," "intend," "expect," "plan," "anticipate," and similar expressions in connection with any discussion of the timing or nature of future operating or financial performance or other events. Forward-looking statements include, without limitation, statements related to the proposed terms of the offerings described herein, the completion, timing and size of the proposed offerings, and the anticipated use of proceeds from the offerings.

The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, examination of historical operating trends, data contained in our records and other data available from third parties. Although Eagle Bulk believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, Eagle Bulk cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including changes in charter hire rates and vessel values, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled drydocking, changes in vessel operating expenses, including drydocking and insurance costs, or actions taken by regulatory authorities, ability of our counterparties to perform their obligations under sales agreements, charter contracts, and other agreements on a timely basis, potential liability from future litigation, the duration and impact of the novel coronavirus pandemic, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by Eagle Bulk with the SEC, including our most recent Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q.
