

PROSPECTUS SUPPLEMENT
(To Prospectus dated May 25, 2017)

3,582,880 Shares of Common Stock

Eagle Bulk Shipping Inc.

Up to 3,582,880 shares of common stock of Eagle Bulk Shipping Inc. are being offered by the selling shareholders named herein, who will borrow such shares, which we refer to as the Initial Borrowed Shares, through share lending arrangements, which we refer to as the Initial Share Loans, from Jefferies LLC, or Jefferies, an initial purchaser in our concurrent private placement of \$100,000,000 aggregate principal amount of 5.00% convertible senior notes due 2024 (plus up to an additional \$15,000,000 principal amount pursuant to the initial purchasers' option to purchase additional notes), or our convertible notes. The selling shareholders will be borrowing shares from Jefferies, which is in turn borrowing the shares from an entity affiliated with Oaktree Capital Management, L.P., or the Initial Lender, one of our shareholders, which as of the date of this prospectus supplement owned 27,144,085 shares of our common stock and who is also a purchaser of our convertible notes. We refer to such share loan herein as the Initial Loan. The borrowed shares are existing shares beneficially owned by the Initial Lender and are ultimately being borrowed by the selling shareholders named herein as set forth in the section entitled "Selling Shareholders." The Initial Loan will be available beginning on the date of the closing of this offering and ending at the time that the Initial Lenders require the return of the shares under the Initial Loan, which may occur within a standard settlement cycle upon notice to Jefferies (in no event later than 5 business days after such notice). The Initial Loan may also be terminated under certain other circumstances specified thereunder.

We expect that the selling shareholders will sell the borrowed shares and use the resulting short position to establish their initial hedge with respect to their investments in our convertible notes which are being offered in a concurrent private placement to qualified institutional buyers under Rule 144A or to non-U.S. persons in offshore transactions pursuant to Regulation S. The selling shareholders may sell the Initial Borrowed Shares at various prices from time to time through Jefferies, one of the initial purchasers of our convertible notes, which may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or from purchasers of Initial Borrowed Shares for whom Jefferies may act as agent. There can be no assurance that any selling shareholder will sell any or all of the shares of our common stock offered pursuant to this prospectus supplement, or the timing of any such sales. The selling shareholders will receive all of the proceeds from the sale of the borrowed shares and neither we nor the Initial Lender will receive any of those proceeds. In consideration for lending its shares under the Initial Loan, the Initial Lender will receive customary fees from Jefferies. We agreed with Jefferies, one of the initial purchasers of our convertible notes, to file promptly after the date of the original issuance of our convertible notes, and seek to have declared effective no later than 90 days after the date of the original issuance of our convertible notes, a registration statement with respect to 3,582,880 shares of common stock. We also agreed with Jefferies to lend, promptly upon request of Jefferies Capital Services, LLC, or JCS, an affiliate of Jefferies, up to 3,582,880 newly-issued shares of common stock to JCS (which loan we refer to as the Replacement Loan) and register for resale shares, which we refer to as the Replacement Borrowed Shares, as requested by the initial purchasers of our convertible notes at such time pursuant to such registration statement by certain holders of our convertible notes (as selling shareholders) for a period that will be not less than 30 consecutive trading days immediately following the effectiveness of the registration statement for such shares. The Replacement Borrowed Shares will be issued and outstanding for all purposes under Marshall Islands law. None of Jefferies, the other initial purchasers of our convertible notes, JCS or us will receive any proceeds of the offering or sale of the Replacement Borrowed Shares, except as described below.

The Replacement Borrowed Shares are expected to be allocated to holders on a pro rata basis or under any other method as determined by us and/or Jefferies in our or its sole discretion. The loans with respect to the Replacement Borrowed Shares, which we refer to as the Replacement Share Loans, are expected to be available to holders of notes during a 30-day period following the effectiveness of the registration statement described above, and ending on or about the maturity date of our convertible notes, or, if earlier, on or about the date as of which all of our convertible notes cease to be outstanding as a result of redemption, repurchase, conversion or other acquisition for value (or earlier in certain circumstances). We expect that the borrowers of the Replacement Borrowed Shares will sell such shares and use the resulting short position to replace any hedge position created in connection with the Initial Share Loans. The Borrowers may effect such transactions by selling the Replacement Borrowed Shares at various prices from time to time through Jefferies, which may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or from purchasers of Replacement Borrowed Shares for whom Jefferies may act as agent. We expect that JCS will pay a nominal fee per borrowed share, equal to the par value of our common stock, to us under the Replacement Loan. We can provide no assurances that we will be able to complete the Replacement Share Loans on their expected terms or at all.

The borrowed shares may be offered for sale in transactions that may include block sales, sales on the Nasdaq Global Select Market, or Nasdaq, sales in the over-the-counter market, sales pursuant to negotiated transactions or otherwise. The delivery of the borrowed shares being offered hereby is conditioned upon the closing of the concurrent offering of the convertible notes.

This prospectus supplement also updates and amends the selling shareholder information contained in the prospectus dated May 25, 2017, to add certain funds as selling shareholders.

Our common stock is listed on Nasdaq under the symbol "EGLE." On July 24, 2019, the last reported sale price of our common stock on Nasdaq was \$4.49 per share.

You should carefully consider each of the factors described under "[Risk Factors](#)" beginning on page S-11 of this prospectus supplement, on page 6 of the accompanying base prospectus and in the documents incorporated by reference into this prospectus supplement and the accompanying base prospectus, before you make any investment in our common stock.

We have not, and the initial purchasers have not, authorized anyone to provide you with information that is different. We and the initial purchasers take no responsibility for, and can provide no assurance as to the reliability of, any information that others may give you. We are offering to sell, and seeking offers to buy, our common stock only in jurisdictions where offers and sales are permitted. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities described in this prospectus supplement. CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the Private Securities Litigation Reform Act of 1995, and are intended to be covered by the safe harbor provided for under these sections. These statements may include words such as “believe,” “estimate,” “project,” “intend,” “expect,” “plan,” “anticipate,” and similar expressions in connection with any discussion of the timing or nature of future operating or financial performance or other events. Forward-looking statements reflect management’s current expectations and observations with respect to future events and financial performance.

Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, our forward-looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by those forward-looking statements. The principal factors that affect our financial position, results of operations and cash flows include charter market rates, which have declined significantly from historic highs, periods of charter hire, vessel operating expenses and voyage costs, which are incurred primarily in U.S. dollars, depreciation expenses, which are a function of the cost of our vessels, significant vessel improvement costs and our vessels’ estimated useful lives, and financing costs related to our indebtedness. The accuracy of the Company’s assumptions, expectations, beliefs and projections depends on events or conditions that change over time and are thus susceptible to change based on actual experience, new developments and known and unknown risks. The Company gives no assurance that the forward-looking statements will prove to be correct and does not undertake any duty to update them. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors which could include the following:

- changes in demand in the drybulk market, including, without limitation, changes in production of, or demand for, commodities and bulk cargoes, generally or in particular regions;
- greater than anticipated levels of drybulk vessel newbuilding orders or lower than anticipated rates of drybulk vessel scrapping;
- changes in rules and regulations applicable to the drybulk industry, including, without limitation, legislation adopted by international bodies or organizations such as the International Maritime Organization and the European Union (the “EU”) or by individual countries;
- actions taken by regulatory authorities including without limitation the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”);
- changes in trading patterns significantly impacting overall drybulk tonnage requirements;
- changes in the typical seasonal variations in drybulk charter rates;
- changes in the cost of other modes of bulk commodity transportation;
- changes in general domestic and international political conditions;
- changes in the condition of the Company’s vessels or applicable maintenance or regulatory standards (which may affect, among other things, our anticipated dry docking costs);
- impairment of our vessels as a result of market and other deteriorations;
- significant deteriorations in charter hire rates from current levels or the failure of the Company to achieve its strategic objectives; and
- the outcome of legal proceedings in which we are involved.

In addition, the Company's future results may be impacted by adverse economic conditions, such as inflation, deflation, or lack of liquidity in the capital markets, that may negatively affect it or parties with whom it does business. Should one or more of the foregoing risks or uncertainties materialize in a way that negatively impacts the Company, or should the Company's underlying assumptions prove incorrect, the Company's actual results may vary materially from those anticipated in its forward-looking statements, and its business, financial condition and results of operations could be materially and adversely affected. Additional factors that you should consider are set forth in detail in the "Risk Factors" section of this prospectus supplement, the accompanying prospectus and the reports incorporated herein by reference, as well as filings the Company makes with the Commission in the future. We disclaim any intent or obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

However, certain industry and market data are subject to change and cannot always be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey. Accordingly, you should be aware that the industry and market data contained in this prospectus supplement and the documents incorporated by reference herein, and estimates and beliefs based on such data, may not be reliable. Although we believe such data and information to be accurate, neither we nor the initial purchasers have attempted to independently verify such information. Industry and market data involve risks and uncertainties and are subject to change based on various factors, including those discussed under the sections entitled "Cautionary Statement Regarding Forward-Looking Statements" and "Risk Factors" in this prospectus supplement, accompanying base prospectus and the documents incorporated by reference herein.

The financial information of Eagle Bulk included or incorporated by reference into this prospectus supplement represents our financial information and the operations of our subsidiaries. OUR COMPANY

We are Eagle Bulk Shipping Inc., a Marshall Islands corporation incorporated on March 23, 2005 and headquartered in Stamford, Connecticut. We own and operate one of the largest fleets of Supramax and Ultramax drybulk vessels in the world. Our operating fleet totals 45 vessels, including 31 Supramax and 14 Ultramax drybulk vessels, with an aggregate carrying capacity of 2,615,519 deadweight (“dwt”), and an average age of 8.9 years as of the date of this prospectus supplement. Our Supramax and Ultramax drybulk vessels are equipped with cargo-handling cranes and grabs and range in size from approximately 50,000 to 65,000 dwt.

We provide transportation solutions to a diverse group of customers, including miners, producers, traders, and end users. Typical cargoes we transport include both major bulk cargoes, such as coal, grain, and iron ore, and minor bulk cargoes such as fertilizer, steel products, petcoke, cement, and forest products. In the first quarter ended March 31, 2019, our cargoes were approximately 71% minor bulks and approximately 29% major bulks, compared to cargoes of approximately 60% minor bulks and 40% major bulks in the year ended December 31, 2018.

Recent and Other Developments

On May 2, 2019, we signed a memorandum of agreement to sell the vessel Thrasher for net proceeds of \$9.8 million. The vessel was delivered to the buyers in the second quarter of 2019. The Company recorded a gain of approximately \$1.0 million in its condensed consolidated statements of operations in connection with this transaction, which will be reflected in the Company’s results for the second quarter of 2019.

On July 10, 2019 and July 15, 2019, we entered into two main terms agreements for the purchase of a total of six high-specification Ultramax bulk carriers (the “Acquisition Vessels”) for total consideration of approximately \$122 million, which we expect to fund using a portion of the proceeds from our concurrent private placement of convertible notes, shares of our common stock, bank debt and cash on hand. The purchase of the Acquisition Vessels remain subject to final documentation and customary closing conditions.

The Acquisition Vessels are all SDARI-64 type design Ultramaxs, built at first-tier Chinese yards. Four vessels will be acquired with Exhaust Gas Cleaning Systems (“scrubbers”) installed. We intend to install scrubbers on the remaining two vessels utilizing options that we hold.

On July 18, 2019, we signed a memorandum of agreement to sell the vessel Kestrel I for gross proceeds of \$7.3 million. The vessel is scheduled to be delivered to the buyer during the third quarter of 2019. The Company expects to record a gain of \$1.0 million in its condensed consolidated statement of operations for the three months ended September 30, 2019.

Preliminary Financial Results for the Quarter Ended June 30, 2019

The following financial data for the quarter ended June 30, 2019 is preliminary and based on information available to us as of the date of this prospectus supplement. We have not finalized our financial statement closing process for the quarter ended June 30, 2019. During the course of that process, we may identify items that would require us to make adjustments, which may be material to the information provided below. As a result, the information below constitutes forward-looking statements and is subject to risks and uncertainties, including possible adjustments to the preliminary results disclosed below. We are providing this information on a one-time basis only and do not intend to update this information prior to the final release for the quarter ended June 30, 2019. The results provided in this section are preliminary and unaudited and do not present all information necessary for an understanding of our financial condition as of June 30, 2019 and our results of operations for the three months ended June 30, 2019. They have been prepared by and are the responsibility of our management. The preliminary estimated results presented here are subject to the completion of our financial closing procedures. Based on information available to us as of the date of this prospectus supplement, we expect that for the quarter ended June 30, 2019:

- Revenues, net of commissions to be between \$67.3 million and \$71.5 million;
- Revenues, net of commissions, charter hire and voyage expenses to be between \$36.2 million and \$38.4 million;
- TCE per day to be between \$9,537 and \$9,927;
- Net loss to be between (\$6.2 million) and (\$5.8 million);
- Basic earnings per share to be between (\$0.09) and (\$0.08);
- Cash, cash equivalents and restricted cash to be between \$64.4 million and \$67.0 million; and
- Total interest bearing debt to be between \$337.0 million and \$343.8 million.

TCE Reconciliation:

Time charter equivalent (“TCE”) is a non-GAAP financial measure that is commonly used in the shipping industry primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charter hire rates for vessels on voyage charters are generally not expressed in per-day amounts while charter hire rates for vessels on time charters generally are expressed in such amounts. The Company defines TCE as shipping revenues less voyage expenses and charter hire expenses, adjusted for the impact of one legacy time charter and realized gains/(losses) on FFAs and bunker swaps, divided by the number of owned available days. TCE provides additional meaningful information in conjunction with shipping revenues, the most directly comparable GAAP measure, because it assists Company management in making decisions regarding the deployment and use of its vessels and in evaluating their financial performance. The Company’s calculation of TCE may not be comparable to that reported by other companies. The Company calculates relative performance by comparing TCE against the Baltic Supramax Index (“BSI”) adjusted for commissions and fleet makeup. The BSI was initiated in 2006 based on the Tess 52 design. The index for the Tess 58 design has been published commencing on April 3, 2017, and transition was completed as of December 2018, when the Baltic stopped publishing a dynamic Tess 52 daily rate. The Company has now switched to the Tess 58 index for valuation modeling as of January 1, 2019. The change in the BSI may affect comparability of our TCE against BSI in periods prior to the Company switching to the Tess 58 index.

Owned available days is the aggregate number of days in a period during which each vessel in our fleet has been owned by us less the aggregate number of days that our vessels are off-hire due to vessel familiarization upon acquisition, repairs, vessel upgrades or special surveys. The shipping industry uses available days to measure the number of days in a period during which vessels should be capable of generating revenues.

These results are subject to change. Deloitte & Touche LLP, the Company’s independent registered public accounting firm, has not audited, reviewed, compiled or performed any procedures with respect to the accompanying preliminary financial data. Accordingly, Deloitte & Touche LLP does not express an opinion or any other form of assurance with respect thereto.

Certain Historical Financial Information

Our adjusted earnings before interest, taxes, depreciation and amortization, or Adjusted EBITDA, for the first quarter of 2019 was \$15.4 million compared with \$23.5 million and \$18.8 million in the fourth quarter of 2018 and the first quarter of 2018, respectively. Our net income for the first quarter of 2019 was \$0.0 million, compared to \$6.5 million and \$0.1 million in the fourth quarter of 2018 and the first quarter of 2018, respectively.

Adjusted EBITDA is a non-U.S. GAAP financial measure that is used as a supplemental financial measure by our management and by external users of our financial statements, such as investors, commercial banks and others, to assess our operating performance as compared to that of other companies in our industry, without regard to financing methods, capital structure or historical costs basis. Our Adjusted EBITDA should not be considered an alternative to net income/(loss), operating income/(loss), cash flows provided by/(used in) operating activities or any other measure of financial performance or liquidity presented in accordance with U.S. GAAP. Our Adjusted EBITDA may not be comparable to similarly titled measures of another company because all companies may not calculate Adjusted EBITDA in the same manner. Adjusted EBITDA represents EBITDA adjusted to exclude the items which represent certain non-cash, one-time and other items such as vessel impairment, gain/(loss) on sale of vessels, stock-based compensation, loss on debt extinguishment and restructuring expenses that the Company believes are not indicative of the ongoing performance of its core operations.

Employment of Our Fleet

We use a variety of commercial strategies to employ our vessels, including time charter-out, voyage chartering, vessel and cargo arbitrage and time charter-in. We employ our fleet opportunistically in an effort to maximize earnings. We enter into charters and are continuously developing contractual relationships directly with cargo interests. These relationships and the related cargo contracts have the dual benefit of providing greater operational efficiencies and act as a balance to our naturally long position to the market. Notwithstanding the focus on voyage chartering, we consistently monitor the drybulk shipping market and, based on market conditions, will consider entering into long-term time charters when appropriate.

Our vessels operate worldwide within the trading limits imposed by governmental economic sanctions regimes and insurance terms and do not operate in countries or territories that are subject to United States, EU, United Kingdom or United Nations comprehensive country-wide or territory-wide sanctions.

Management of Our Fleet

We perform the commercial and strategic management of our operating fleet through our indirectly wholly-owned subsidiary, Eagle Bulk Management LLC, a Marshall Islands limited liability company, which maintains its principal executive offices in Stamford, Connecticut and maintain subsidiaries in Hamburg, Germany and Singapore. We have also established an in-house technical management function to perform day-to-day operations and maintenance of our vessels.

Business Strategy

Our vision is to be the leading integrated drybulk shipowner-operator through consistent outperformance and sustainable growth. We plan to achieve our vision by:

- *Focusing on the most attractive drybulk vessel segment.* We focus on owning and operating vessels within the mid-size Supramax and Ultramax segment. We consider this vessel segment to be the most versatile amongst the various drybulk asset classes due to the size and specifications of Supramax and Ultramax ships. With a dwt size ranging from 50,000 to 65,000 metric tons and a length of approximately 200 meters, Supramax and Ultramax vessels are able to accommodate large cargo quantities, but call on the majority of ports around the globe. In addition, these vessels are equipped with onboard cranes and grabs, giving them the capability to load and discharge cargoes without the need for shore-based port equipment/infrastructure. We believe the versatility and flexibility of Supramax and Ultramax vessels provide for improved risk-adjusted returns.
- *Employing an active management strategy for fleet trading.* We employ an active management strategy for fleet employment with the objective of optimizing revenue performance and maximizing earnings on a risk managed basis. Through the execution of various commercial strategies employed across our global trading desks in the United States, Europe, and Asia, the Company has been able to achieve improved results and outperform the relevant market index on a consistent basis.
- *Executing on fleet renewal and growth.* Since 2016, we have executed on a fleet renewal program with a total of 27 vessel sales (excluding the Kestrel I, which we recently agreed to sell) and purchases as of the date of this prospectus supplement. We have acquired 14 modern Ultramax vessels and sold 13 of our older and less efficient Supramaxes. We believe that these transactions have led to an improvement in the makeup and earnings generation ability of our fleet, as well as maintain our average age of our fleet.
- *Performing technical management in-house.* We perform all technical management services relating to vessel maintenance, vessel repairs and crewing. We believe maintaining technical management in-house allows us to better optimize operating costs and vessel performance.
- *Implementing a prudent approach to balance sheet management.* We believe the long-term success of the Company is contingent on maintaining a prudent approach to balance sheet management, including working capital optimization, moderate leverage, diversifying capital sources, lowering cost of capital, limiting interest rate exposure, and optimizing debt profile/tenor.
- *Upholding strong corporate governance.* In order to ensure full alignment with our shareholders, we place a great deal of emphasis on maintaining strong corporate governance. Our corporate governance structure includes having a board of directors, which is comprised of independent directors with the sole exception of our CEO, having an independent Chairman of the Board, and having a related person transaction approval policy. We believe good corporate governance encourages accountability and transparency, and promotes good decision-making. Our corporate governance has been recognized as one of the strongest in the industry.
- *Enacting Corporate Social Responsibility (“CSR”).* The business decisions we make daily onboard our ships and by our shoreside team are guided by our focus on the health and safety of our crew, our ships,

and the environment. We are mindful to conduct ourselves as a responsible business, intent on encouraging accountability and transparency while promoting good decision-making.

- *Abiding by our values.*
 - PASSION for excellence drives us
 - EMPOWERMENT of our people leads to better results
 - INTEGRITY defines our culture
 - RESPONSIBILITY to safety underpins every decision
 - FORWARD THINKING takes us to a more successful tomorrow

Risk Factors

Investing in our common stock involves risks. We urge you to carefully consider all of the information described in the section entitled “Risk Factors” beginning on page S-11 of this prospectus supplement and page 6 of the accompanying base prospectus, as well as other information incorporated by reference into this prospectus supplement before deciding whether to invest in our common stock.

RISK FACTORS

An investment in our common stock involves a high degree of risk. Before making an investment in our common stock, you should carefully consider the risk factors and all of the other information included in this prospectus supplement, the accompanying base prospectus and the documents incorporated into each by reference, including those in “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2018, filed with the Commission on March 13, 2019, as updated by annual, quarterly and other reports and documents we file with the Commission after the date of this prospectus supplement and that are incorporated by reference herein. Please see the section of this prospectus supplement entitled “Where You Can Find Additional Information—Information Incorporated by Reference.” The occurrence of one or more of those risk factors could adversely impact our business, financial condition or results of operations.

Risks Related to Our Operations

World events could affect our operations and financial results.

Past terrorist attacks, as well as the threat of future terrorist attacks around the world, continue to cause uncertainty in the world’s financial markets and may affect our business, operating results and financial condition. Continuing conflicts, instability and other recent developments in the Middle East and elsewhere, including recent events involving vessels in the Strait of Hormuz and off the coast of Gibraltar, and the presence of U.S. or other armed forces in Afghanistan and Syria, may lead to additional acts of terrorism and armed conflict around the world, which may contribute to further economic instability in the global financial markets. Any of these occurrences could have a material adverse impact on our business, financial condition and results of operations.

For additional risks related to our operations, please see “Item 1A. Risk Factors-Industry Specific Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2018.

Risks Related to Our Common Stock

The effect of the sale of the borrowed shares in this offering, which sale may be made to facilitate transactions by which investors in our convertible notes may hedge their investments, may be to lower the market price of our common stock.

We have been advised that the selling shareholders intend to sell the borrowed shares and use the resulting short position to establish their initial hedge with respect to their investments in our convertible notes and that the replacement facility will also be used to hedge holders’ positions in our convertible notes. The existence of the share lending arrangements and the short sales of our common stock effected in connection with the sale of our convertible notes could cause the market price of our common stock to be lower over the term of the share lending arrangements than it would have been had we not entered into such arrangements, due to the effect of the increase in the number of our outstanding shares of common stock being traded in the market or otherwise. The market price of our common stock could be further negatively affected by other short sales of our common stock, including other sales by the purchasers of the convertible notes hedging their investment therein.

Future sales, or availability for sale, of common stock by shareholders could depress the market price of our common stock.

Sales of a substantial number of shares of our common stock in the public market, including sales by any selling shareholder or the perception that large sales could occur could depress the market price of our common stock. Such future sales, or perception thereof, could also impact our ability to raise capital through future offerings of equity or equity-linked securities. As of July 22, 2019, we had 73,155,647 shares of common stock issued and outstanding.

Conversion of the convertible notes being offered concurrently or our election to deliver shares to holders of the convertible notes with respect to the principal amount owed at maturity may dilute the ownership interest of existing shareholders.

[Table of Contents](#)

To the extent we issue common stock upon conversion of the convertible notes, the conversion of some or all of the convertible notes will dilute the ownership interests of existing stockholders. If we elect to deliver shares to holders of convertible notes with respect to the principal amount owed at maturity, the ownership interests of existing stockholders would also be diluted. Any sales in the public market of common stock so issued could adversely affect prevailing market prices of our common stock. In addition, the existence of the convertible notes may encourage short selling by market participants because the conversion of the convertible notes could depress the price of our common stock.

The adjustments by convertible note investors of their hedging positions in our common stock and the expectation thereof may have a negative effect on the market price of our common stock.

The short positions in our common stock resulting from the share lending arrangements and the sale of borrowed shares in this offering are expected to be used to facilitate hedging, including through short sales of our common stock, by investors in the convertible notes. The borrowed shares sold in this offering may be more or less than the number of shares that will be needed from time to time by the convertible notes investors to hedge their exposure under our convertible notes. Any buying or selling of shares of our common stock by the investors in the concurrent note offering to adjust their hedging positions may affect the market price of our common stock.

Servicing our indebtedness requires a significant amount of cash, and we may not have sufficient cash flow from our business to pay our substantial indebtedness.

Our ability to make scheduled payments of the principal of, to pay interest on or to refinance our indebtedness, including our convertible notes, or to make cash payments in connection with any conversion of notes depends on our future performance, which is subject to economic, financial, competitive and other factors beyond our control. Our business may not continue to generate cash flow from operations in the future sufficient to service our indebtedness and make necessary capital expenditures. If we are unable to generate such cash flow, we may be required to adopt one or more alternatives, such as selling assets, restructuring indebtedness or obtaining additional equity capital on terms that may be onerous or highly dilutive. Our ability to refinance our indebtedness will depend on the capital markets and our financial condition at such time. We may not be able to engage in any of these activities or engage in these activities on desirable terms, which could result in a default on our debt obligations, many of which contain cross-default provisions that would result in default under other debt obligations upon default under one. In addition, if we default under certain of ours or our subsidiaries' debt obligations, it could result in our convertible notes becoming due and payable prior to maturity.

The existence of our convertible notes and hedging transactions in our common stock related to our convertible notes may impact the trading price of our common stock.

The existence of our convertible notes may encourage short selling by market participants because the conversion of our convertible notes could depress the price of our common stock. The price of our common stock could be affected by possible sales of our common stock by investors who view our convertible notes as a more attractive means of equity participation in us or as a means to engage in hedging or arbitrage trading activity, which we expect to occur involving our shares of common stock. This hedging or arbitrage could, in turn, affect the market price of the common stock.

Furthermore, the existence of the share lending arrangements related to our convertible notes, as described under "Description of Share Lending Arrangements; Concurrent Offering of Convertible Notes," including the Initial Loan, Initial Share Loans, Replacement Loan and Replacement Share Loans and any short sales of our common stock effected in connection with such loans, could cause the market price of our common stock to be lower over the term of such share lending arrangements than it would have been if there were no such arrangements.

USE OF PROCEEDS

The shares offered hereby by the selling shareholders have been borrowed through share lending arrangements with Jefferies, which will borrow the shares from the Initial Lender. The borrowed shares are existing shares that are beneficially owned by the Initial Lender and are ultimately being borrowed by the selling shareholders named herein as set forth in the section entitled “Selling Shareholders.” The Initial Share Loans will be available beginning on the date of the closing of this offering and ending at the time that the Initial Lender requires the return of the borrowed shares under the Initial Loan, which may occur within a standard settlement cycle upon notice to Jefferies (in no event later than 5 business days after such notice). The Initial Share Loans may also be terminated under certain other circumstances specified thereunder.

We expect that the selling shareholders will sell the borrowed shares and use the resulting short position to hedge their respective investments in our convertible notes. There can be no assurance that any selling shareholder will sell any or all of the common stock offered pursuant to this prospectus supplement, or the timing of any such sales. The selling shareholders will receive all of the proceeds from the sale of the borrowed shares, and neither we nor the Initial Lender will receive any of those proceeds. In consideration for lending their shares under the Initial Loan, the Initial Lender will receive customary fees from Jefferies.

DESCRIPTION OF SHARE LENDING ARRANGEMENTS; CONCURRENT OFFERING OF CONVERTIBLE NOTES

Up to 3,582,880 of shares of our common stock are being offered hereby by the selling shareholders named herein, who will borrow such shares through share lending arrangements from Jefferies, one of the initial purchasers of our convertible notes, which in turn is borrowing the shares from an entity affiliated with Oaktree Capital Management L.P., or the Initial Lender, one of our shareholders, which, as of the date of this prospectus supplement, owned 27,144,085 shares of our common stock and who is also a purchaser of our convertible notes. We refer to such share loan as the Initial Loan. The borrowed shares pursuant to the Initial Loan, or the Initial Borrowed Shares, have been and will continue to be issued and outstanding for all purposes under Marshall Islands law. None of Jefferies, the other initial purchasers of our convertible notes, us or the Initial Lender will receive any proceeds of the offering or sale of the Initial Borrowed Shares, except as described below.

The Initial Loan will be available beginning on the date of the closing of this offering and ending at the time that the Initial Lender requires the return of the shares under the Initial Loan, which may occur within a standard settlement cycle upon notice to Jefferies (in no event later than 5 business days after such notice). The Initial Loan may also be terminated under certain other circumstances specified thereunder. In consideration for lending its shares under the Initial Loan, the Initial Lender will receive customary fees from Jefferies. We can provide no assurances as to the length of or the number of shares available under the Initial Loan.

The holders of the Initial Borrowed Shares will have the right to vote the shares on all matters submitted to a vote of our shareholders and the right to receive any dividends or other distributions that we may make or pay on our outstanding shares of common stock. The total number of shares that the selling shareholders can borrow under the Initial Share Loans is limited to a maximum of 3,582,880 shares. The selling shareholders may, in order to establish short positions in the shares, sell the Initial Borrowed Shares at various prices from time to time through Jefferies, one of the initial purchasers of our convertible notes, which may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or from purchasers of Initial Borrowed Shares for whom Jefferies may act as agent.

We agreed with Jefferies, one of the initial purchasers of our convertible notes, to file promptly after the date of the original issuance of our convertible notes, and seek to have declared effective no later than 90 days after the date of the original issuance of our convertible notes, a registration statement with respect to 3,582,880 shares of common stock. We also agreed with Jefferies to lend, promptly upon request of Jefferies Capital Services LLC, or JCS, an affiliate of Jefferies, up to 3,582,880 newly-issued shares of common stock to JCS (which loan we refer to as the Replacement Loan) and register for resale, which we refer to as the Replacement Borrowed Shares, as requested by the initial purchasers of our convertible notes at such time pursuant to such registration statement by certain holders of our convertible notes (as selling shareholders) for a period that will be not less than 30 consecutive trading days immediately following the effectiveness of the registration statement for such shares (together, we refer to these as the Replacement Share Borrow Conditions).

The Replacement Borrowed Shares may be offered by means of a prospectus supplement and accompanying prospectus, by the selling shareholders that would be named therein, which will borrow such shares, or the Replacement Borrowed Shares, through share lending arrangements, or the Replacement Share Loans, from Jefferies, one of the initial purchasers of our convertible notes, which will borrow the shares from JCS, an affiliate of Jefferies, which in turn will borrow the shares from us pursuant to the Replacement Loan. The Replacement Borrowed Shares will be issued and outstanding for all purposes under Marshall Islands law. None of Jefferies, the other initial purchasers of our convertible notes, JCS or us will receive any proceeds of the offering or sale of the Replacement Borrowed Shares, except as described below. The Replacement Borrowed Shares are expected to be allocated to holders on a pro rata basis or under any other method as determined by us and/or Jefferies in our or its sole discretion. The Replacement Share Loans are expected to be available to holders of notes during a period following the satisfaction of the Replacement Share Borrow Conditions, and ending on or about the maturity date of our convertible notes, or, if earlier, on or about the date as of which all of our

[Table of Contents](#)

convertible notes cease to be outstanding as a result of redemption, repurchase, conversion or other acquisition for value (or earlier in certain circumstances described below). We refer to such period as the Replacement Loan Availability Period.

The contemplated Replacement Loan will also terminate, and the shares borrowed under such Replacement Share Loans would need to be returned to us, upon the termination of the Replacement Loan Availability Period, as well as under the following circumstances:

- JCS may terminate all or any portion of a loan at any time; and
- JCS or we may terminate any or all of the outstanding loans upon a default by the other party under the Replacement Share Loans or the bankruptcy of JCS or us.

The holders of the Replacement Borrowed Shares will have the right to vote the shares on all matters submitted to a vote of our shareholders and the right to receive any dividends or other distributions that we may pay or make on our outstanding shares of common stock. However, under the Replacement Loan we expect JCS:

- to pay to us an amount equal to cash dividends, if any, that we pay on the shares borrowed under the Replacement Loan;
- to pay or deliver, as the case may be, to us any other distribution, other than in a liquidation or a reorganization in bankruptcy, that we make on the shares borrowed under the Replacement Loan; and
- not to vote the shares borrowed under the Replacement Loan on any matter submitted to a vote of our stockholders, except in certain circumstances where such vote is required for quorum purposes.

We expect that the borrowers of the Replacement Borrowed Shares will sell such shares and use the resulting short position to replace any hedge position created in connection with the Initial Share Loans. The borrowers may effect such transactions by selling the Replacement Borrowed Shares at various prices from time to time through Jefferies, which may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or from purchasers of Replacement Borrowed Shares for whom Jefferies may act as agent. We expect that JCS will pay a nominal fee per borrowed share, equal to the par value of our common stock, to us under the Replacement Loan.

The existence of the Initial Loan, Initial Share Loans, Replacement Loan and Replacement Share Loans and any short sales of our common stock effected in connection with the entry into, or maintenance of, hedge positions of holders of notes, could cause the market price of our common stock to be lower over the term of the share lending arrangements than it would have been if there were no such arrangements. However, we have determined that these loans will be in our best interests as a means to facilitate the offer and sale of our convertible notes pursuant on terms more favorable to us than we could have otherwise obtained.

SELLING SHAREHOLDERS

3,582,880 shares of our common stock previously registered to the Initial Lender will be transferred to the selling shareholders in such amounts described below through the share lending arrangements described herein. The selling shareholders are offering an aggregate of up to 3,582,880. The selling shareholders will borrow such shares through share lending arrangements with Jefferies, which will in turn will borrow the shares from the Initial Lender. The borrowed shares are existing shares beneficially owned by the Initial Lender and are ultimately being borrowed by the selling shareholders named herein as set forth below. Based solely upon information furnished to us by the selling shareholders, the following table sets forth information with respect to the beneficial ownership of our common stock held as of the date of this prospectus by the selling shareholders. The table below assumes that all the shares being offered by the selling shareholders pursuant to this prospectus supplement are ultimately sold pursuant to this prospectus supplement. The selling shareholders may sell some, all or none of their shares covered by this prospectus supplement.

PLAN OF DISTRIBUTION

The borrowed shares being offered pursuant to this prospectus supplement and the accompanying prospectus will be borrowed by the selling shareholders named herein through share lending arrangements with Jefferies, one of the initial purchasers of our concurrent private placement of our convertible notes, which in turn will borrow the shares from the Initial Lender. The borrowed shares are existing shares beneficially owned by the Initial Lender and are ultimately being borrowed by the selling shareholders. The Initial Share Loans will be available beginning on the date of the closing of this offering and ending at the time that the Initial Lender requires the return of the borrowed shares under the Initial Loan, which may occur within a standard settlement cycle upon notice to Jefferies (in no event less than 5 business days after such notice). The Initial Share Loans may also be terminated under certain other circumstances specified thereunder.

The selling shareholders may, in order to establish short positions in the shares, sell the Initial Borrowed Shares at various prices from time to time through Jefferies, one of the initial purchasers of our convertible notes, which may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or from purchasers of Initial Borrowed Shares for whom Jefferies may act as agent. There can be no assurance that any selling shareholder will sell any or all of the shares of common stock offered pursuant to this prospectus supplement, or the timing of any such sales.

The selling shareholders may sell the shares of our common stock included in this prospectus through Jefferies, in privately negotiated transactions, at market prices prevailing at the time of sale, at prices related to the prevailing market prices, or at negotiated prices.

In addition, the selling shareholders may sell, through Jefferies, shares of our common stock included in this prospectus through:

- block trades in which a broker-dealer may resell a portion of the block, as principal, in order to facilitate the transaction;
- purchases by a broker-dealer, as principal, and resale by the broker-dealer for its account; or
- ordinary brokerage transactions and transactions in which a broker solicits purchasers.

None of Jefferies, the Initial Lender or us will receive any proceeds of the offering or sale of the borrowed shares. However, Jefferies has agreed to pay a fee to the Initial Lender in respect of the borrowed shares. In addition, Jefferies may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or from purchasers of borrowed shares for whom it may act as agent and will receive a fee in exchange for lending the borrowed shares.

We agreed with Jefferies, one of the initial purchasers of our concurrent private placement of our convertible notes, to file promptly after the date of the original issuance of our convertible notes, and seek to have declared effective no later than 90 days after the date of the original issuance of our convertible notes, a registration statement with respect to 3,582,880 shares of common stock. We also agreed with Jefferies to lend, promptly upon request of Jefferies Capital Services, LLC, or JCS, an affiliate of Jefferies, up to 3,582,880 newly-issued shares of common stock to JCS (which loan we refer to as the Replacement Loan) and register for resale the Replacement Borrowed Shares as requested by the initial purchasers in our concurrent private placement of our convertible notes at such time pursuant to such registration statement by certain holders of our convertible notes (as selling shareholders) for a period that will be not less than 30 consecutive trading days immediately following the effectiveness of the registration statement for such shares. The Replacement Borrowed Shares will be issued and outstanding for all purposes under Marshall Islands law. None of Jefferies, the other initial purchasers of our convertible notes, JCS or us will receive any proceeds of the offering or sale of the Replacement Borrowed Shares, except as described below. We can provide no assurances that we will be able to complete the Replacement Share Loans on its expected terms or at all.

[Table of Contents](#)

We expect that the borrowers of the Replacement Borrowed Shares will sell such shares and use the resulting short position to replace any hedge position created in connection with the Initial Share Loans. The borrowers may effect such transactions by selling the Replacement Borrowed Shares at various prices from time to time through Jefferies, which may receive compensation in the form of discounts, concessions or commissions from the selling shareholders and/or from purchasers of Replacement Borrowed Shares for whom Jefferies may act as agent. We expect that JCS will pay a nominal fee per borrowed share, equal to the par value of our common stock, to us under the Replacement Loan.

The selling shareholders and any broker-dealers or other persons acting on our behalf or on the behalf of the selling shareholders that participate with the selling shareholders in the distribution of the securities may be deemed to be underwriters, and any commissions received or profit realized by them on the resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act. As a result, we have informed the selling shareholders that Regulation M, promulgated under the Exchange Act, may apply to sales by the selling shareholders in the market. The selling shareholders may agree to indemnify any broker, dealer or agent that participates in transactions involving the sale of shares of our common stock against certain liabilities, including liabilities arising under the Securities Act.

We will bear the registration costs relating to the securities offered and sold by the selling shareholders under this Registration Statement.

ENFORCEABILITY OF CIVIL LIABILITIES

We are incorporated under the laws of the Republic of the Marshall Islands. Certain of our directors, and officers reside outside the United States. In addition, a substantial portion of our assets and the assets of such directors and officers are located outside the United States. As a result, you may have difficulty serving legal process within the United States upon any of these persons. You may also have difficulty enforcing, both in and outside the United States, judgments you may obtain in United States courts against us or these persons in any action, including actions based upon the civil liability provisions of United States federal or state securities laws. Furthermore, there is substantial doubt that the courts of the Marshall Islands would enter judgments in original actions brought in those courts predicated on United States federal or state securities laws.

Our Company

We are Eagle Bulk Shipping Inc., a Marshall Islands corporation incorporated on March 23, 2005 and headquartered in Stamford, Connecticut. We own one of the largest fleets of Supramax/Ultramax dry bulk vessels in the world. Supramax dry bulk are vessels which are constructed with on-board cranes, ranging in size from approximately 50,000 to 59,000 “dwt” and Ultramax dry bulk vessels range in size from 60,000 to 65,000 dwt. They are considered a sub-category of the Handymax segment; typically defined as 40,000 to 65,000 dwt. We transport a broad range of major and minor bulk cargoes, including but not limited to coal, grain, ore, petcoke, cement and fertilizer, along worldwide shipping routes. As of March 31, 2017, we owned and operated a modern fleet of 41 Handymax dry bulk vessels. We chartered-in a 37,000 dwt newbuilding Japanese vessel that was delivered in October 2014 for seven years with an option for one additional year. On April 3, 2017, we signed an agreement to cancel this existing time chartered-in contract, and, at the same time, we entered into an agreement to charter in a 61,400 dwt, 2013 built Japanese vessel for approximately four years (having the same redelivery dates as the aforementioned cancelled charter) with options for two additional years.

We are focused on maintaining a high quality fleet that is concentrated primarily in Supramax/Ultramax dry bulk carriers. These vessels have the cargo loading and unloading flexibility of on-board cranes while offering cargo carrying capacities approaching that of Panamax dry bulk vessels, which range in size from 72,000 to 83,000 dwt and rely on port facilities to load and offload their cargoes. We believe that the cargo handling flexibility and cargo carrying capacity of the Supramax/Ultramax class vessels make them attractive to cargo interests and vessel charterers. The Company’s owned operating fleet consisted of 41 dry bulk vessels, with an aggregate carrying capacity of 2,269,062 dwt, have an average age of 8.9 years as of March 31, 2017.

We carry out the commercial and strategic management of our fleet through our indirectly wholly-owned subsidiary, Eagle Shipping International (USA) LLC, a Marshall Islands limited liability company, which maintains its principal executive offices in Stamford, Connecticut. We own each of our vessels through a separate wholly-owned Marshall Islands limited liability company.

On February 28, 2017, Eagle Bulk Ultraco LLC, a wholly-owned subsidiary of the Company, entered into a framework agreement with Greenship Bulk Manager Pte. Ltd., as Trustee-Manager of Greenship Bulk Trust, a Norwegian OTC-listed entity, for the purchase of nine modern sister vessels built between 2012 and 2015, or collectively, the Newly Acquired Vessels. The aggregate purchase price for the Newly Acquired Vessels is \$153.0 million. The allocated purchase price for each Newly Acquired Vessel is \$17.0 million. The Company paid a deposit of \$10.3 million in the first quarter of 2017 for the purchase of the first six Newly Acquired Vessels. The Company took delivery of two Newly Acquired Vessels, Mystic Eagle and Singapore Eagle, and the remaining Newly Acquired Vessels are expected to be delivered charter free between May 2017 to September 2017.

We maintain our principal executive offices at 300 First Stamford Place, 5th Floor, Stamford, Connecticut 06902. Our telephone number at that address is (203) 276-8100. Our website address is www.eagleships.com. Information contained on our website does not constitute part of this prospectus.

Unexercised Existing Warrants expire on October 15, 2021.
Registration Rights Agreement	On the Effective Date, and in accordance with the Plan, the Company and certain of its shareholders entered into a registration rights agreement. The registration rights agreement provided the shareholders party thereto with demand and piggyback registration rights with respect to certain securities of the Company held by them, subject to the requirement that such securities qualify as Registrable Securities, as defined therein. On May 13, 2016, the Company entered into an Amended and Restated Registration Rights Agreement, or the A&R Registration Rights Agreement, with Oaktree Capital Management, L.P. and GoldenTree Asset Management LP (and their respective affiliates), which the A&R Registration Rights Agreement provides them, among other things, demand and piggyback registration rights with respect to certain securities of the Company held by them, subject to the requirement that such securities qualify as Registrable Securities, as defined therein.
Listing	Our shares of common stock are listed on the Nasdaq Global Select Market, or NASDAQ, under the symbol "EGLE."
Risk Factors	You should consider carefully all of the information that is contained or incorporated by reference in this prospectus and, in particular, you should evaluate the risks described under "Risk Factors."
A prospectus supplement will describe the specific types, amounts, prices, and detailed terms of any of these securities that we or the selling shareholders, as applicable, may offer and may describe certain risks associated with an investment in the securities. Terms used in any such prospectus supplement will have the meanings described in this prospectus, unless otherwise specified.	

RISK FACTORS

An investment in our securities involves risks. You should consider carefully the risk factors and other information included in, or incorporated by reference into, this prospectus and any applicable prospectus supplement in evaluating an investment in our securities. We hereby incorporate by reference into this prospectus the risk factors included in Item 1A. "Risk Factors" in our Annual Report on Form 10-K filed with the Commission on March 31, 2017, or the 2016 10-K, and all other risk factors contained in any other documents that are incorporated by reference into this prospectus or any prospectus supplement. This prospectus also contains forward-looking statements that involve risks and uncertainties. If any of these risks occur, our business, financial condition or results of operation could be adversely affected. Please read "Forward-Looking Statements." Our actual results could differ materially from those anticipated in the forward-looking statements as a result of certain factors.

The warrants are a risky investment, and may expire as worthless.

The Existing Warrants are exercisable only until the seventh (7th) anniversary of the date of issuance, or October 15, 2021. In the event our common stock price is not greater than the exercise price of the Existing Warrants during the period when the Warrants are exercisable, you will likely not be able to recover the value of your investment in the Existing Warrants. In addition, if our common stock price remains below the exercise price of the Existing Warrants, the Existing Warrants may not have any value and may expire without being exercised, in which case you would lose your entire investment. There can be no assurance that the market price of our common stock will exceed the exercise price during the exercise period of the Existing Warrants.

There is no established trading market for the Existing Warrants and, as a result, you may not be able to sell them at the particular time you select, at the price that you originally paid or at all.

There is no established trading market for the Existing Warrants. Moreover, we do not intend to apply to have the Existing Warrants listed on any securities exchange or included in any automated quotation system. As a result, we cannot assure you that you will be able to sell any Existing Warrants at the particular time you select, at the price that you originally paid or at all. We also cannot assure you as to the liquidity of any market that may develop for the Existing Warrants. Future trading prices and the liquidity of any market for the Existing Warrants, to the extent such a market ever develops, will depend on many factors, including:

- our financial condition and results of operations;
- the interest of securities dealers in making a market for the Existing Warrants; and
- the market for similar securities.

Holders of the Existing Warrants will have no rights as shareholders until they acquire our common stock.

Until you acquire shares of our common stock upon exercise of your Existing Warrants, you will have no rights with respect to our common stock, including rights to dividend payments or payments upon the liquidation, dissolution or winding up of the Company, voting rights or the right to respond to tender offers. Upon exercise of your Existing Warrants, you will be entitled to exercise the rights of a common shareholder only as to matters for which the record date occurs after the exercise date.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the Private Securities Litigation Reform Act of 1995, and are intended to be covered by the safe harbor provided for under these sections. These statements may include words such as “believe,” “estimate,” “project,” “intend,” “expect,” “plan,” “anticipate,” and similar expressions in connection with any discussion of the timing or nature of future operating or financial performance or other events. Forward-looking statements reflect management’s current expectations and observations with respect to future events and financial performance.

Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, our forward-looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected, or implied by those forward-looking statements. The principal factors that affect our financial position, results of operations and cash flows include, charter market rates, which have declined significantly from historic highs, periods of charter hire, vessel operating expenses and voyage costs, which are incurred primarily in U.S. dollars, depreciation expenses, which are a function of the cost of our vessels, significant vessel improvement costs and our vessels’ estimated useful lives, and financing costs related to our indebtedness. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors which could include the following: (i) changes in demand in the dry bulk market, including, without limitation, changes in production of, or demand for, commodities and bulk cargoes, generally or in particular regions; (ii) greater than anticipated levels of dry bulk vessel new building orders or lower than anticipated rates of dry bulk vessel scrapping; (iii) changes in rules and regulations applicable to the dry bulk industry, including, without limitation, legislation adopted by international bodies or organizations such as the International Maritime Organization and the European Union or by individual countries; (iv) actions taken by regulatory authorities including without limitation the U.S. Treasury Department’s Office of Foreign Assets Control; (v) changes in trading patterns significantly impacting overall dry bulk tonnage requirements; (vi) changes in the typical seasonal variations in dry bulk charter rates; (vii) changes in the cost of other modes of bulk commodity transportation; (viii) changes in general domestic and international political conditions; (ix) changes in the condition of the Company’s vessels or applicable maintenance or regulatory standards (which may affect, among other things, our anticipated dry docking costs); (x) significant deteriorations in charter hire rates from current levels or the inability of the Company to achieve its cost-cutting measures; and (xi) the outcome of legal proceeding in which we are involved; and other factors listed from time to time in our filings with the Commission. This discussion also includes statistical data regarding world dry bulk fleet and orderbook and fleet age. We generated some of this data internally, and some were obtained from independent industry publications and reports that we believe to be reliable sources. We have not independently verified this data nor sought the consent of any organizations to refer to their reports in this prospectus. We disclaim any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

We caution readers of this prospectus and any prospectus supplement not to place undue reliance on these forward-looking statements, which speak only as of their dates. We undertake no obligation to update or revise any forward-looking statements.

USE OF PROCEEDS

Unless we specify otherwise in any prospectus supplement, we intend to use the net proceeds from the sale of securities offered by us pursuant to this prospectus to make vessel acquisitions and for capital expenditures, repayment of indebtedness, working capital, and general corporate purposes. We will not receive any of the proceeds from the sale or other disposition of the shares of common stock, Existing Warrants and Warrant Shares offered by the selling shareholders pursuant to this prospectus, although we will receive the proceeds from the exercise of the Existing Warrants. Any amounts we receive from such exercises will be used as described above. The holders of the Existing Warrants are not obligated to exercise the Existing Warrants and we cannot assure you that such holders will choose to exercise all or any of the Existing Warrants.

DESCRIPTION OF CAPITAL STOCK

The following is a description of the material terms of our third amended and restated articles of incorporation, or the Articles of Incorporation, and second amended and restated by-laws, or the By-Laws, as currently in effect. We refer you to our Articles of Incorporation and By-Laws, copies of which have been filed as exhibits to the registration statement of which this prospectus forms a part.

Purpose

Our purpose, as stated in our Articles of Incorporation, is to engage in any lawful act or activity for which a corporation may now or hereafter be organized under the Business Corporations Act of the Marshall Islands, or the BCA. Our Articles of Incorporation and By-Laws do not impose any limitations on the ownership rights of our shareholders.

Authorized Capitalization

Under our Articles of Incorporation, as of May 15, 2017, our authorized capital stock consists of 700 million shares of common stock, par value \$0.01 per share, of which 74,103,956 shares were issued and outstanding, and 25 million shares of preferred stock, par value \$0.01 per share, or the preferred stock, of which no shares of preferred stock were issued and outstanding. All of our shares of stock are in registered form.

Common Stock

Each outstanding share of common stock entitles the holder to one vote on all matters submitted to a vote of shareholders. Subject to preferences that may be applicable to any outstanding shares of preferred stock, if any, holders of shares of common stock are entitled to receive ratably all dividends, if any, declared by our board of directors out of assets or funds legally available for dividends. Upon our liquidation, dissolution or winding up, after payment in full of all amounts required to be paid to creditors and to the holders of preferred stock having liquidation preferences, if any, the holders of our common stock will be entitled to receive pro rata our remaining assets and funds available for distribution. Holders of common stock do not have conversion, redemption or preemptive rights to subscribe to any of our securities. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of any shares of preferred stock, which we may issue in the future.

Preferred Stock

Our Articles of Incorporation authorize our board of directors to establish one or more series of preferred stock and to determine, with respect to any series of preferred stock, the terms and rights of that series, including:

- the designation of the series;
 - the number of shares of the series;
 - the designations, preferences and relative, participating, optional or other special rights, if any, and any qualifications, limitations or restrictions of such series; provided that the total shares of preferred stock shall in no event have an aggregate liquidation preference of more than \$300 million; and
 - the voting rights, if any, of the holders of the series.

It is not possible to state the actual effect of the authorization and issuance of one or more series of preferred stock upon the rights of holders of common stock until our board of directors determines the specific terms, rights and preferences of a series of preferred stock.

[Table of Contents](#)

The material terms of any series of preferred stock that we offer through a prospectus supplement, as well as any material United States federal income tax considerations, will be described in that prospectus supplement.

Authorized but Unissued Capital Stock

The BCA does not require shareholder approval for any issuance of authorized shares. However, the listing requirements of NASDAQ, which will apply so long as our common stock is listed on NASDAQ, require shareholder approval of certain issuances equal to or exceeding 20% of the then outstanding voting power or then outstanding number of shares of our common stock.

Directors

Our directors are elected by a majority of the votes cast by shareholders entitled to vote. There is no provision for cumulative voting.

Our board of directors is elected annually, and each director elected holds office for a one-year term and until his successor shall have been duly elected and qualified, except in the event of his death, resignation, removal, or the earlier termination of his term of office. Our board of directors has the authority to fix the amounts which shall be payable to the members of the board of directors for attendance at any meeting or for services rendered to us and for the reimbursement of reasonable and documented expenses.

Shareholder Meetings

Under our By-Laws, annual shareholder meetings will be held at a time and place selected by our board of directors. The meetings may be held in or outside of the Marshall Islands. The Articles of Incorporation and By-Laws provide that, except as otherwise required by law, special meetings of shareholders may be called at any time only by (i) the lead director (if any), (ii) the chairman of the board of directors, (iii) the board of directors pursuant to a resolution duly adopted by a majority of the board stating the purpose or purposes thereof, or (iv) any one or more shareholders who beneficially owns, in the aggregate, 15% or more of the aggregate voting power of all then-outstanding shares of common stock and any other class or series of capital stock of the Company entitled to vote generally in the election of directors. The notice of any such special meeting is to include the purpose or purposes thereof, and the business transacted at the special meeting is limited to the purpose or purposes stated in the notice (or any supplement thereto). These provisions may impede the ability of shareholders to bring matters before a special meeting of shareholders. Our board of directors may set a record date between 15 and 60 days before the date of any meeting to determine the shareholders that will be eligible to receive notice and vote at the meeting.

Dissenters' Rights of Appraisal and Payment

Under the BCA, our shareholders have the right to dissent from various corporate actions, including any merger or consolidation sale of all or substantially all of our assets not made in the usual course of our business, and receive payment of the fair value of their shares. In the event of any further amendment of our Articles of Incorporation, a shareholder also has the right to dissent and receive payment for his or her shares if the amendment alters certain rights in respect of those shares. The dissenting shareholder must follow the procedures set forth in the BCA to receive payment. In the event that we and any dissenting shareholder fail to agree on a price for the shares, the BCA procedures involve, among other things, the institution of proceedings in the high court of the Marshall Islands or in any appropriate court in any jurisdiction in which the Company's shares are primarily traded on a local or national securities exchange.

Shareholders' Derivative Actions

Under the BCA, any of our shareholders may bring an action in our name to procure a judgment in our favor, also known as a derivative action, provided that the shareholder bringing the action is a holder of common stock both at the time the derivative action is commenced and at the time of the transaction to which the action relates.

Limitations on Liability and Indemnification of Officers and Directors

The BCA authorizes corporations to limit or eliminate the personal liability of directors and officers to corporations and their shareholders for monetary damages for breaches of directors' fiduciary duties. Our By-Laws include a provision that eliminates the personal liability of directors for monetary damages for actions taken as a director to the fullest extent permitted by law.

Our By-Laws provide that we must indemnify our directors and officers to the fullest extent authorized by law. We are also expressly authorized to advance certain expenses (including attorneys' fees) to our directors and officers and carry directors' and officers' insurance providing indemnification for our directors, officers and certain employees for some liabilities. We believe that these indemnification provisions and insurance are useful to attract and retain qualified directors and executive offices.

The limitation of liability and indemnification provisions in our Articles of Incorporation and By-Laws may discourage shareholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our shareholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

There is currently no pending material litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the claim has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Anti-takeover Effect of Certain Provisions of our Articles of Incorporation and By-Laws

Several provisions of our Articles of Incorporation and By-Laws, which are summarized below, may have anti-takeover effects. These provisions are intended to avoid costly takeover battles, lessen our vulnerability to a hostile change of control and enhance the ability of our board of directors to maximize shareholder value in connection with any unsolicited offer to acquire us. However, these anti-takeover provisions could also discourage, delay or prevent (1) the merger or acquisition of our Company by means of a tender offer, a proxy contest or otherwise that a shareholder may consider in its best interest and (2) the removal of incumbent officers and directors.

Blank Check Preferred Stock

Under the terms of our Articles of Incorporation, our board of directors has authority, without any further vote or action by our shareholders, to issue shares of blank check preferred stock; provided that the total shares of blank check preferred stock shall in no event have an aggregate liquidation preference of more than \$300 million. Our board of directors may issue shares of preferred stock on terms calculated to discourage, delay or prevent a change of control of our Company or the removal of our management.

[Table of Contents](#)

Election and Removal of Directors

Our Articles of Incorporation prohibit cumulative voting in the election of directors. Our By-Laws require parties other than the board of directors to give advance written notice of nominations for the election of directors. Our Articles of Incorporation also provide that our directors may only be removed for cause upon the affirmative vote of a majority of the outstanding shares of our capital stock entitled to vote for the election of directors. Newly created directorships resulting from an increase in the number of directors and vacancies occurring in our board of directors for any reason may only be filled by a vote of a majority of the directors then in office, even if less than a quorum exists (except that a quorum is required if the vacancy results from an increase in the number of directors).

Advance Notice Requirements for Shareholder Proposals and Director Nominations

Our By-Laws provide that shareholders seeking to nominate candidates for election as directors or to bring business before an annual meeting of shareholders must provide timely notice of their proposal in writing to the corporate secretary. To be timely, a shareholder's notice will have to be received at our principal executive offices not less than 60 days nor more than 90 days prior to the anniversary date of the immediately preceding annual meeting of shareholders; provided, however, that in the event that the annual meeting is called for a date that is not within 30 days before or after such anniversary date, notice by the shareholder in order to be timely must be so received not later than the close of business on the 10th day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date of the annual meeting was made, whichever occurs first, in order for such notice by a shareholder to be timely. Our By-Laws also specify requirements as to the form and content of a shareholder's notice. These advance notice requirements, particularly the 60 to 90 day requirement, may impede shareholders' ability to bring matters before an annual meeting of shareholders or make nominations for directors at an annual meeting of shareholders.

Action by Written Consent

Our By-Laws provide that any action required or permitted to be taken by the shareholders may be effected only at a duly called annual or special meeting of the shareholders. Except as otherwise mandated by law, the ability of shareholders to consent in writing to the taking of any action is specifically denied.

Certain Voting Requirements

Our Articles of Incorporation provide that a two-thirds vote is required to amend or repeal certain provisions of our Articles of Incorporation and By-Laws, including those provisions relating to: the number and election of directors; filling of board vacancies; resignations and removals of directors; director liability and indemnification of directors; the power of shareholders to call special meetings; advance notice of director nominations and shareholders proposals; and amendments to our Articles of Incorporation and By-Laws. These supermajority provisions may discourage, delay or prevent the changes to our Articles of Incorporation or By-Laws.

Transfer Agent

The registrar and transfer agent for our common stock is Computershare Trust Company, N.A.

Listing

Our shares are listed on NASDAQ under the symbol "EGLE."

We may, however, satisfy our obligations, if any, with respect to any purchase contract by delivering the cash value of such purchase contract or the cash value of the property otherwise deliverable or, in the case of purchase contracts on underlying currencies, by delivering the underlying currencies, as set forth in the applicable prospectus supplement. The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities or currencies and any acceleration, cancellation or termination provisions, provisions relating to U.S. federal income tax considerations, if any, or other provisions relating to the settlement of a purchase contract.

SELLING SHAREHOLDERS

On the Effective Date, and in accordance with the Plan, the Company and certain of its shareholders entered into a registration rights agreement. The registration rights agreement provided the shareholders party thereto with demand and piggyback registration rights with respect to certain securities of the Company held by them, subject to the requirement that such securities qualify as Registrable Securities, as defined therein. On May 13, 2016, the Company entered into the A&R Registration Rights Agreement with affiliates of Oaktree Capital Management, L.P., affiliates of GoldenTree Asset Management LP and the Lisa and Steven Tananbaum Family Foundation. The A&R Registration Rights Agreement provides the shareholders party thereto similar demand and piggyback registration rights as the aforementioned original registration rights agreement.

The table below lists the selling shareholders and other information regarding the beneficial ownership of our common stock by each of the selling shareholders, based on 74,103,956 shares of common stock outstanding as of May 15, 2017. We have prepared the table and the related notes based on information supplied to us by the selling shareholders, any Schedules 13D or 13G and other public documents filed with the Commission. We have not sought to verify such information. The table assumes the sale of all of the shares of our common stock (including any Warrant Shares) and Existing Warrants offered by the selling shareholders in this offering. Additionally, some or all of the selling shareholders may have sold or transferred some or all of the securities listed below in exempt or non-exempt transactions since the date on which the information was provided to us. Other information about the selling shareholders may change over time, as it is possible that the selling shareholders may acquire or dispose of Existing Warrants or shares of our common stock from time to time after the date of this prospectus. Changes in such information will be set forth in prospectus supplements to the extent required. We entered into the Warrant Agreement pursuant to which the Existing Warrants were issued, the A&R Registration Rights Agreement and certain related agreements with the selling shareholders in connection with the Plan.

The term “selling shareholder” includes the shareholders listed below and their respective transferees, assignees, pledges, donees and other successors.

We will bear all costs, expenses and fees in connection with the registration of shares of our common stock, Existing Warrants and Warrant Shares to be sold by the selling shareholders. The selling shareholders will bear all commissions and discounts, if any, attributable to their respective sales of shares.

Each of the selling shareholders that is an affiliate of a broker-dealer has represented to us that it purchased or acquired the securities offered by this prospectus in the ordinary course of business and, at the time of purchase or acquisition of those securities, did not have any agreements, understandings or other plans, directly or indirectly, with any person to distribute those securities.

PLAN OF DISTRIBUTION

The securities covered by this prospectus may be offered and sold by us and the selling shareholders, or by transferees, assignees, donees, pledgees or other successors-in-interest of such securities received from the selling shareholders, directly or indirectly through brokers-dealers, agents or underwriters on NASDAQ or any other stock exchange, market or trading facility on which such securities are traded, or through private transactions. Our securities covered by this prospectus may be sold by any method permitted by law, including, without limitation, one or more of following transactions:

- ordinary brokerage transactions or transactions in which the broker solicits purchasers;
- purchases by a broker or dealer as principal and the subsequent resale by such broker or dealer for its account;
- block trades, in which a broker or dealer attempts to sell the securities as agent but may position and resell a portion of the securities as principal to facilitate the transaction;
- through the writing of options on the securities, whether such options are listed on an options exchange or otherwise;
- an exchange distribution in accordance with the rules of the applicable stock exchange;
- through privately negotiated transactions;
- through the settlement of short sales entered into after the date of this prospectus;
- by agreement with a broker-dealers to sell a specified number of securities at a stipulated price per share;
- a combination of any such methods of sale;
- through at-the-market offerings into an existing trading market in accordance with Rule 415(a)(4) under the Securities Act; and
- any other method permitted pursuant to applicable law.

We may offer our equity securities described in this prospectus into an existing trading market on the terms described in the prospectus supplement thereto. Underwriters and dealers who may participate in any at-the-market offerings will be described in the prospectus supplement relating thereto.

The selling shareholders may also sell securities under Section 4(a)(1) of the Securities Act, including transactions in accordance with Rule 144 promulgated thereunder, if available, rather than under this prospectus.

The selling shareholders may also transfer their shares by means of gifts, donations and contributions. Subject to certain limitations under rules promulgated under the Securities Act, this prospectus may be used by the recipients of such gifts, donations and contributions to offer and sell the shares received by them, directly or through brokers-dealers or agents and in private or public transactions.

Broker-dealers engaged by us or the selling shareholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from us or the selling shareholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser), as the case may be, in amounts to be negotiated.

The selling shareholders may, from time to time, pledge or grant a security interest in some or all of the securities owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the securities, from time to time, under this prospectus, or under an amendment to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act amending the list of selling

shareholders to include the pledgee, transferee or other successors in interest as selling shareholders under this prospectus. The selling shareholders also may transfer the securities in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

In connection with the sale of our securities or interests therein, the selling shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The selling shareholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The selling shareholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

We and the selling shareholders may sell the securities at market prices prevailing at the time of sale, at negotiated prices, at fixed prices or without consideration by any legally available means. The aggregate net proceeds from the sale of the securities will be the purchase price of such securities less any discounts, concessions or commissions received by broker-dealers or agents. We will not receive any proceeds from the sale of any securities by the selling shareholders.

The selling shareholders and any broker-dealers or agents who participate in the distribution of our securities may be deemed to be “underwriters” within the meaning of the Securities Act. Any commission received by such broker-dealers or agent on the sales and any profit on the resale of securities purchased by broker-dealers or agents may be deemed to be underwriting commissions or discounts under the Securities Act. As a result, we have informed the selling shareholders that Regulation M, promulgated under the Exchange Act, may apply to sales by the selling shareholders in the market. The selling shareholders may agree to indemnify any broker, dealer or agent that participates in transactions involving the sale of our securities against certain liabilities, including liabilities arising under the Securities Act.

To the extent required with respect to a particular offer or sale of our securities, we will file a prospectus supplement pursuant to Section 424(b) of the Securities Act, which will accompany this prospectus, to disclose:

- the number and type of securities to be sold;
- the purchase price;
- the name of each selling shareholder, if any, and the name of any broker-dealer or agent effecting the sale or transfer and the amount of any applicable discounts, commissions or similar selling expenses; and
- any other relevant information.

The selling shareholders are acting independently of us in making decisions with respect to the timing, price, manner and size of each sale of securities held by them. We have not engaged any broker-dealer or agent in connection with the sale of securities held by the selling shareholders, and there is no assurance that the selling shareholders will sell any or all of their securities. We have agreed to make available to the selling shareholders copies of this prospectus and any applicable prospectus supplement and have informed the selling shareholders of the need to deliver copies of this prospectus and any applicable prospectus supplement to purchasers prior to any sale to them.

Under the securities laws of some states, the securities may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the securities may not be sold unless such securities have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

We will pay all expenses of the registration of the securities to be sold by the selling shareholders pursuant to the A&R Registration Rights Agreement, including, without limitation, Commission filing fees and expenses of compliance with state securities or “blue sky” laws; provided, however, a selling shareholder will pay all underwriting discounts and selling commissions, if any. We will indemnify the selling shareholders against liabilities, including some liabilities under the Securities Act in accordance with the A&R Registration Rights Agreement or the selling shareholders will be entitled to contribution. We may be indemnified by the selling shareholders against civil liabilities, including liabilities under the Securities Act that may arise from any written information furnished to us by the selling shareholders specifically for use in this prospectus, in accordance with the A&R Registration Rights Agreement or we may be entitled to contribution.

Once sold under the registration statement, of which this prospectus forms a part, the securities will be freely tradable in the hands of persons other than our affiliates.

ENFORCEABILITY OF CIVIL LIABILITIES

We are incorporated under the laws of the Republic of the Marshall Islands. Certain of our directors, and officers reside outside the United States. In addition, a substantial portion of our assets and the assets of such directors and officers are located outside the United States. As a result, you may have difficulty serving legal process within the United States upon any of these persons. You may also have difficulty enforcing, both in and outside the United States, judgments you may obtain in United States courts against us or these persons in any action, including actions based upon the civil liability provisions of United States federal or state securities laws. Furthermore, there is substantial doubt that the courts of the Marshall Islands would enter judgments in original actions brought in those courts predicated on United States federal or state securities laws.
