## CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the Private Securities Litigation Reform Act of 1995, and are intended to be covered by the safe harbor provided for under these sections. These statements may include words such as “believe,” “estimate,” “project,” “intend,” “expect,” “plan,” “anticipate,” and similar expressions in connection with any discussion of the timing or nature of future operating or financial performance or other events. Forward-looking statements reflect management’s current expectations and observations with respect to future events and financial performance.

Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, our forward-looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by those forward-looking statements. The principal factors that affect our financial position, results of operations and cash flows include charter market rates, which have declined significantly from historic highs, periods of charter hire, vessel operating expenses and voyage costs, which are incurred primarily in U.S. dollars, depreciation expenses, which are a function of the purchase price of our vessels and our vessels’ estimated useful lives and scrap value, general and administrative expenses, and financing costs related to our indebtedness. The accuracy of the Company’s assumptions, expectations, beliefs and projections depends on events or conditions that change over time and are thus susceptible to change based on actual experience, new developments and known and unknown risks. The Company gives no assurance that the forward-looking statements will prove to be correct and does not undertake any duty to update them. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors which could include the following:

- changes in demand in the drybulk market, including, without limitation, changes in production of, or demand for, commodities and bulk cargoes, generally or in particular regions;
- greater than anticipated levels of drybulk vessel newbuilding orders or lower than anticipated rates of drybulk vessel scrapping;
- changes in rules and regulations applicable to the drybulk industry, including, without limitation, legislation adopted by international bodies or organizations such as the International Maritime Organization and the European Union (the “EU”) or by individual countries;
- actions taken by regulatory authorities including without limitation the U.S. Treasury Department’s Office of Foreign Assets Control (“OFAC”);
- changes in trading patterns significantly impacting overall drybulk tonnage requirements;
- changes in the typical seasonal variations in drybulk charter rates;
- changes in the cost of other modes of bulk commodity transportation;
- changes in general domestic and international political conditions;
- changes in the condition of the Company’s vessels or applicable maintenance or regulatory standards (which may affect, among other things, our anticipated dry docking costs);
- settlement rates as compared to contracted rates under certain derivative instruments, such as forward freight, bunker and interest rate swap agreements;
- significant deterioration in charter hire rates from current levels or the inability of the Company to achieve its cost-cutting measures;
- the duration and impact of the novel coronavirus (“COVID-19”) pandemic, including the availability and effectiveness of vaccines on a widespread basis and the impact of any mutations of the virus;

---

## [Table of Contents](#)

- the relative cost and availability of low and high sulfur fuel oil;
- our ability to realize the economic benefits or recover the cost of the scrubbers we have installed; and
- any legal proceedings which we may be involved from time to time; and other factors listed from time to time in our filings with the Securities and Exchange Commission (the “Commission”).

We have based these statements on assumptions and analyses formed by applying our experience and perception of historical trends, current conditions, expected future developments and other factors we believe are appropriate in the circumstances. The Company’s future results may be impacted by adverse economic conditions, such as inflation, deflation, or lack of liquidity in the capital markets, that may negatively affect it or parties with whom it does business. Should one or more of the foregoing risks or uncertainties materialize in a way that negatively impacts the Company, or should the Company’s underlying assumptions prove incorrect, the Company’s actual results may vary materially from those anticipated in its forward-looking statements, and its business, financial condition and results of operations could be materially and adversely affected.

Additional factors that you should consider are set forth in detail in the “Risk Factors” section of this prospectus supplement, the accompanying prospectus and the reports incorporated herein by reference, as well as filings the Company will make with the Commission in the future.

However, certain industry and market data are subject to change and cannot always be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other limitations and uncertainties inherent in any statistical survey. Accordingly, you should be aware that the industry and market data contained in this prospectus supplement and the documents incorporated by reference herein, and estimates and beliefs based on such data, may not be reliable. Although we believe such data and information to be accurate, neither we nor the underwriter have attempted to independently verify such information. Industry and market data involve risks and uncertainties and are subject to change based on various factors, including those discussed under the sections entitled “Cautionary Statement Regarding Forward-Looking Statements” and “Risk Factors” in this prospectus supplement, accompanying prospectus and the documents incorporated by reference herein.

## OUR COMPANY

We are Eagle Bulk Shipping Inc., a Marshall Islands corporation incorporated on March 23, 2005 and headquartered in Stamford, Connecticut. We own and operate one of the largest fleets of Supramax and Ultramax drybulk vessels in the world. As of the date of this prospectus, our owned fleet, after giving effect to the pending sale and purchase transactions, totals 53 vessels, with an aggregate carrying capacity of approximately 3.2 million deadweight tonnage (“dwt”) and an average age of roughly 8.7 years. Our Supramax and Ultramax drybulk vessels are equipped with cargo-handling cranes and grabs and range in size from approximately 50,000 to 65,000 dwt.

We provide transportation solutions to a diverse group of customers, including miners, producers, traders, and end users. Typical cargoes we transport include both major bulk cargoes, such as coal, grain, and iron ore, and minor bulk cargoes such as fertilizer, steel products, petcoke, cement, and forest products. For the twelve months ending March 31, 2021, our cargoes were approximately 68% minor bulks and approximately 32% major bulks.

## Sale and Purchase Transactions

On January 28, 2021, we signed a memorandum of agreement with Eneti Inc. (formerly known as Scorpio Bulk, Inc.), a Marshall Islands corporation (“Eneti”), to acquire a high-specification 2017 built scrubber-fitted Ultramax vessel for \$15.0 million in cash and a warrant for 212,315 shares of our common stock. We paid a deposit of \$1.9 million on February 8, 2021. The vessel, which was renamed the M/V Rotterdam Eagle, was delivered in the second quarter of 2021.

On February 6, 2021, we signed memorandums of agreement with Alterna Core Capital Assets Fund, L.P., a Delaware limited partnership (“Alterna”), to acquire three 2011 built Supramax vessels for \$21.2 million in cash and a warrant for an aggregate of 329,583 shares of our common stock. Two of the vessels, which were renamed the M/V Sankaty Eagle and M/V Montauk Eagle, were delivered in the second quarter of 2021, with the remaining vessel, which will be renamed the M/V Newport Eagle, expected to be delivered in the third quarter of 2021.

On May 25, 2021, we purchased two 2015 built scrubber-fitted Ultramax vessels for a total consideration of \$44 million. The vessels, which will be renamed the M/V Antwerp Eagle and M/V Valencia Eagle, are of the SDARI-64 design and were constructed at Jiangsu Hantong Ship Heavy Industry Co. We expect to take delivery of both ships during the third quarter of 2021.

On June 1, 2021, we sold the M/V Tern, a 2003 built Supramax vessel, for a total consideration of \$9.7 million. We expect to deliver the vessel during the third quarter of 2021.

### Recent Developments

In addition to the recent sale and purchase transactions described above, we issued 581,385 shares of common stock during second quarter at an average price of \$47.97 under our at-the-market program (“ATM Program”), raising a total of \$27.9 million in gross proceeds. As previously disclosed, our ATM Program was established pursuant to an at market issuance sales agreement entered into among the Company and B. Riley Securities, Inc., BTIG, LLC and Fearnley Securities, Inc., as sales agents, to sell shares of common stock, par value \$0.01 per share, pursuant to the prospectus supplement filed on March 12, 2021 to this registration statement, having aggregate sales proceeds of up to \$50.0 million.

We utilize forward freight agreements (“FFA”) in order to partially hedge against our underlying long physical position in ships (as represented by our owned fleet as well as third-party chartered-in ships). Due to the very significant increase in drybulk freight rates in 2021, we expect to generate increased revenues from our owned and third-party fleet, which will be in part offset by losses on our short FFA hedge position. Since we do not apply hedge accounting for our FFA activity, we expect that our current hedge positions in FFAs will impact our results of operations in the form of a significant non-cash unrealized loss for the second quarter of 2021. Assuming there is no change to the underlying market going forward, such unrealized losses will become realized in the second half of 2021, which we expect will be more than offset by an increase in revenues earned by our owned and chartered-in fleet. See note 5. Derivative Instruments—Forward freight agreements and bunker swaps of our most recent unaudited condensed consolidated financial statements and “Item 1A. Risk Factors—Utilizing derivative instruments, such as forward freight, bunker and interest rate swap agreements, could result in losses” in our most recent annual report on Form 10-K, each of which are incorporated by reference into this prospectus supplement.

### **Employment of Our Fleet**

We use a variety of commercial strategies to employ our vessels, including time charter-out, voyage chartering, vessel and cargo arbitrage and time charter-in. We employ our fleet opportunistically in an effort to maximize earnings. We enter into charters and are continuously developing contractual relationships directly with cargo interests. These relationships and the related cargo contracts have the dual benefit of providing greater operational efficiencies and act as a balance to our naturally long position to the market. Notwithstanding the focus on voyage chartering, we consistently monitor the drybulk shipping market and, based on market conditions, will consider entering into long-term time charters when appropriate.

Our vessels operate worldwide within the trading limits imposed by governmental economic sanctions regimes and insurance terms and do not operate in countries or territories that are subject to United States, EU, United Kingdom or United Nations comprehensive country-wide or territory-wide sanctions.

### **Management of Our Fleet**

We carry out the commercial and strategic management of our operating fleet through our indirectly wholly-owned subsidiary, Eagle Bulk Management LLC, a Marshall Islands limited liability company, which maintains its principal executive offices in Stamford, Connecticut, and maintains offices in Copenhagen, Denmark and Singapore. We have also established an in-house technical management function to perform day-to-day operations and maintenance of our vessels.

### **Business Strategy**

Our vision is to be the leading integrated drybulk shipowner-operator through consistent outperformance and sustainable growth. We plan to achieve our vision by:

- *Focusing on the most versatile drybulk vessel segment.* We focus on owning-operating vessels primarily within the mid-size Supramax/Ultramax segment. We consider this vessel segment to be the most versatile amongst the various drybulk asset classes due to the optimal size and specifications of Supramax/Ultramax ships. With a size ranging from 50,000 to 65,000 dwt and a length of approximately 200 meters, Supramax/Ultramax vessels are able to accommodate large cargo quantities and call on the majority of ports around the globe. In addition, these vessels are equipped with onboard cranes and grabs, giving them the ability to load and discharge cargoes without the need for shore-based port equipment/infrastructure. We believe the versatility and flexibility of Supramax/Ultramax vessels provide for improved risk-adjusted returns.
- *Employing an active management strategy for fleet trading.* We employ an active management strategy for fleet employment with the objective of optimizing revenue performance and maximizing earnings on a risk managed basis. Through the execution of various commercial strategies employed across our global trading desks in the United States, Europe, and Asia, the Company has been able to achieve optimal time charter equivalent results and outperform the relevant market index on a consistent basis.
- *Executing on fleet renewal and growth.* Since 2016, we have executed on a comprehensive fleet renewal program totaling 49 vessel transactions, inclusive of acquisitions made thus far in 2021. We have acquired 29 modern Ultramax vessels and sold 20 of our older and less efficient Supramax vessels. We believe these transactions have vastly improved our fleet makeup. The average size of our ships has increased, the average age of our fleet has remained fairly static (over the period), and our fleet emissions profile has significantly improved (as measured by fuel consumption per deadweight-ton).
- *Performing technical management in-house.* We perform all technical management services relating to vessel maintenance, vessel repairs and crewing. We believe maintaining technical management in-house allows us to better optimize operating costs and vessel performance.
- *Implementing a prudent approach to balance sheet management.* We believe the long-term success of our Company is contingent on maintaining a prudent approach to balance sheet management, including working capital optimization, diversifying capital sources, lowering cost of capital, limiting interest rate exposure, and optimizing debt profile.
- *Emphasis on Environmental, Social and Governance (“ESG”) factors.* We have developed, maintained and expanded on various initiatives relating to ESG matters. To better inform our shareholders and other stakeholders about these matters of strategic importance, we issued our first annual ESG Sustainability Report in May 2020. We intend to issue our 2020 ESG Sustainability report in June 2021. Our ESG Sustainability report is produced in accordance with the Marine Transportation Framework, established by the Sustainability Accounting Standards Board and can be accessed on our company website. Initiatives we have undertaken include:

### ***Environmental***

- Executing on a comprehensive fleet renewal program to purchase newer, more technologically advanced vessels that have enhanced the energy efficiency of our fleet and reduced greenhouse gas (“GHG”) emissions on a ton-mile basis.
- Creating a performance department and implementing performance optimization software, which has resulted in improved vessel performance and reduced fuel consumption.
- Applying high specification hull coatings and installing various energy saving devices around the propeller aperture to improve vessel performance and reduce fuel consumption.
- Reducing sulfur emissions by approximately 85% by following strategies to comply with the International Maritime Organization’s (“IMO”) new fuel regulations which went into effect in January 2020.
- Joining the Getting to Zero Coalition, a global alliance of more than 140 companies committed to the decarbonization of deep-sea shipping in line with the IMO GHG emissions reduction strategy and ultimately to aligning emissions from shipping with the United Nations Framework Convention on Climate Change Paris Agreement.
- Providing relevant data on fuel compliance and sailing distances for each of our owned vessels to our lenders that are signatories to the Poseidon Principles. The Poseidon Principles establish a framework for assessing and disclosing the climate alignment of ship finance portfolios and are consistent with the policies and ambitions of the IMO to reduce shipping’s total annual GHG emissions by at least 50% by 2050.
- Becoming a signatory to the Sea Cargo Charter, a global framework for aligning chartering activities with responsible environmental behavior in order to promote international shipping’s decarbonization. The Sea Cargo Charter is consistent with the IMO’s ambition for GHG emissions from international shipping to peak as soon as possible and to reduce by at least 50% by 2050 compared to 2008 levels.

### ***Social***

- Abiding by equal opportunity employer guidelines and promoting diversity in the workforce.
- Recognizing and complying with the Maritime Labor Convention which was adopted by the International Labor Organization (“ILO”) —all of our crew labor contracts are International Transport Workers’ Federation compliant agreements.
- Becoming a signatory to The Neptune Declaration, a global ‘call to action’ initiative to help end the unprecedented crew change crisis affecting the maritime industry as a result of the outbreak of COVID-19 and its impact to worldwide travel.
- Implementing a robust safety management system.
- Volunteering with, and donating to, various local charities and causes.
- Providing paid internship opportunities to university students.

### ***Governance***

- Setting up a best-in-class corporate governance structure.
- Combating corruption through strict internal procedures and training, as well as taking part in collective action through our membership in the Maritime Anti-Corruption Network.
- Adopting a comprehensive code of ethics and related compliance program within the organization that provides ongoing training and robust controls.
- Focusing on highly transparent reporting of sustainability, operating, and financial performance.

***Abiding by our values.***

- PASSION for excellence drives us.
- EMPOWERMENT of our people leads to better results.
- INTEGRITY defines our culture.
- RESPONSIBILITY to safety underpins every decision.
- FORWARD THINKING takes us to a more successful tomorrow.

Sales of a substantial number of shares of our common stock in the public market, or the perception that these sales could occur, may depress the market price for our common stock. These sales could also impair our ability to raise additional capital through the sale of our equity securities in the future. Our Third Amended and Restated Articles of Incorporation (our “Charter”) authorizes us to issue 700,000,000 shares of common stock, of which 13,460,270 shares were issued and outstanding as of June 27, 2021. We may issue additional shares of our common stock in the future. Our shareholders may incur dilution from any future equity offering and upon the issuance of additional shares of our common stock upon the exercise of options we have granted to certain of our executive officers or upon the issuance of additional shares of common stock pursuant to our equity incentive plan. In addition, we may issue common stock upon conversion of our 5.00% Convertible Senior Notes due 2024 (the “Convertible Bond Debt”) and the existence of our Convertible Bond Debt may encourage short selling by market participants because the conversion of our Convertible Bond Debt could depress the price of our common stock. Finally, we have a registration rights agreement in favor of certain of our shareholders. Additionally, after the offering, certain of our employees, including our executive officers, and/or directors may enter into written trading plans that are intended to comply with Rule 10b5-1 under the Securities Exchange Act of 1934. Sales under these trading plans would not be permitted until the expiration of the lock-up agreements relating to this offering. See “Underwriting.” Sales of our common stock by one or more of those holders could lower the trading price of our shares.

***We are incorporated in the Marshall Islands, which does not have a well-developed body of corporate law.***

Our corporate affairs are governed by our Charter and Second Amended and Restated By-laws (the “Bylaws”) and by the Marshall Islands Business Corporations Act (the “BCA”). The provisions of the BCA resemble provisions of the corporation laws of a number of states in the United States. However, there have been few judicial cases in the Marshall Islands interpreting the BCA. The rights and fiduciary responsibilities of directors under the laws of the Marshall Islands are not as clearly established as the rights and fiduciary responsibilities of directors under statutes or judicial precedent in existence in the United States. The rights of shareholders of companies incorporated in the Marshall Islands may differ from the rights of shareholders of companies incorporated in the United States. While the BCA provides that it is to be interpreted according to the laws of the State of Delaware and other states with substantially similar legislative provisions, there have been few, if any, court cases interpreting the BCA in the Marshall Islands and we cannot predict whether Marshall Islands courts would reach the same conclusions as United States courts. Thus, you may have more difficulty in protecting your interests in the face of actions by the management, directors or controlling shareholders than would shareholders of a corporation incorporated in a United States jurisdiction which has developed a relatively more substantial body of case law.

***The market price of our common shares has fluctuated and may continue to fluctuate in the future.***

The market price of our common shares has fluctuated since we became a public company and may continue to do so as a result of many factors, including our actual results of operations and perceived prospects, the prospects of our competition and of the shipping industry in general and in particular the drybulk sector, differences between our actual financial and operating results and those expected by investors and analysts, changes in analysts' recommendations or projections, changes in general valuations for companies in the shipping industry, particularly the drybulk sector, changes in general economic or market conditions and broad market fluctuations.

***The public market for our common shares may not be active and liquid enough for you to resell our common shares in the future.***

The stock market has experienced extreme price and volume fluctuations. If the volatility in the market continues or worsens, it could have an adverse effect on the market price of our common shares and could impact a potential sale price if holders of our common stock decide to resell their shares.

The seaborne transportation industry has been highly unpredictable and volatile. The market for common shares in this industry may also be volatile. The market price of our common shares may be influenced by many factors, many of which are beyond our control, including:

- actual or anticipated fluctuations in our quarterly and annual results and those of other public companies in our industry;
- announcements by us or our competitors of significant contracts, acquisitions or capital commitments;
- mergers and strategic alliances in the shipping industry;
- terrorist acts;
- future sales of our common shares or other securities;
- market conditions in the shipping industry;
- economic and regulatory trends;
- shortfalls in our operating results from levels forecast by securities analysts;
- announcements concerning us or our competitors;
- the general state of the securities market; and
- investors' perception of us and the drybulk shipping industry.

As a result of these and other factors, investors in our common stock may not be able to resell their shares at or above the price they paid for such shares. These broad market and industry factors may materially reduce the market price of our common shares, regardless of our operating performance.

***Certain shareholders own large portions of our outstanding common stock, which may limit other shareholders' ability to influence our actions.***

Certain shareholders currently hold significant percentages of our common stock. To the extent a significant percentage of the ownership of our common stock is concentrated in a small number of holders, such holders will be able to influence the outcome of any shareholder vote, including the election of directors, the adoption or amendment of provisions in our Charter or Bylaws and possible mergers, corporate control contests and other significant corporate transactions. This concentration of ownership may have the effect of delaying, deferring or preventing a change in control, merger, consolidation, takeover or other business combination involving us. This concentration of ownership could also discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which could in turn have an adverse effect on the market price of our common stock.

***Our shareholders are limited in their ability to elect or remove directors.***

The Charter prohibits cumulative voting in the election of directors. The Bylaws require parties other than the board of directors to give advance written notice of nominations for the election of directors. The Charter also provides that directors may only be removed for cause upon the affirmative vote of a majority of the outstanding shares of capital stock entitled to vote for the election of directors. Newly created directorships resulting from an increase in the number of directors and vacancies occurring in the board of directors for any reason may only be filled by a majority of the directors then in office, even if less than a quorum exists.

***Our shareholders may take action only at Annual or Special Meetings.***

The Charter and the Bylaws provide that any action required or permitted to be taken by shareholders must be effected at a duly called annual or special meeting of shareholders. Except as otherwise mandated by law, shareholders may not act by written consent.

Under the Bylaws, annual shareholder meetings will be held at a time and place selected by the board of directors. The meetings may be held in or outside of the Marshall Islands. These provisions may impede shareholders' ability to take actions with respect to the Company that they deem appropriate or advisable.

The Charter and the Bylaws provide that, except as otherwise required by law, special meetings of shareholders may be called at any time only by (i) the lead director (if any), (ii) the chairman of the board of directors, (iii) the board of directors pursuant to a resolution duly adopted by a majority of the board stating the purpose or purposes thereof, or (iv) any one or more shareholders who beneficially owns, in the aggregate, 15% or more of the aggregate voting power of all then-outstanding shares of voting stock. The notice of any such special meeting is to include the purpose or purposes thereof, and the business transacted at the special meeting is limited to the purpose or purposes stated in the notice (or any supplement thereto). These provisions may impede the ability of shareholders to bring matters before a special meeting of shareholders.

The board of directors may set a record date between 15 and 60 days before the date of any meeting to determine the shareholders that will be eligible to receive notice and vote at the meeting.

***Our shareholders are subject to advance notice requirements for shareholder proposals and director nominations***

The Bylaws provide that shareholders seeking to nominate candidates for election as directors or to bring business before an annual meeting of shareholders must provide timely notice of their proposal in writing to the corporate secretary. To be timely, a shareholder's notice will have to be received at the Company's principal executive offices not less than 60 days nor more than 90 days prior to the anniversary date of the immediately preceding annual meeting of shareholders; provided, however, that in the event that the annual meeting is called for a date that is not within 30 days before or after such anniversary date, notice by the shareholder must be received not later than the close of business on the tenth day following the day on which such notice of the date of the annual meeting was mailed or public disclosure of the date of the annual meeting was made, whichever occurs first, in order for such notice by a shareholder to be timely. The Bylaws also specify requirements as to the form and content of a shareholder's notice. These advance notice requirements, particularly the 60 to 90 day requirement, may impede shareholders' ability to bring matters before an annual meeting of shareholders or make nominations for directors at an annual meeting of shareholders.

***Certain super majority provisions in our organizational documents may discourage, delay or prevent changes to such documents.***

The Charter provides that a two-thirds vote is required to amend or repeal certain provisions of the Charter and Bylaws, including those provisions relating to: the number and election of directors; filling of board

vacancies; resignations and removals of directors; director liability and indemnification of directors; the power of shareholders to call special meetings; advance notice of director nominations and shareholders proposals; and amendments to the Charter and Bylaws. These super majority provisions may discourage, delay or prevent changes to the Charter or Bylaws.

***Our Charter provides that the U.S. federal courts located in the Southern District of New York or, if such courts lack jurisdiction, the state courts of the State of New York, shall be the sole and exclusive forum for certain disputes between us and our shareholders, which could limit our shareholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, or employees.***

Our Charter provides that, unless the Company consents in writing to the selection of an alternative forum, the U.S. federal courts located in the Southern District of New York or, if such court lacks jurisdiction, the state courts of the State of New York, shall be the sole and exclusive forum for (a) any derivative action or proceeding brought on behalf of the Company, (b) any action asserting a claim of a breach of a fiduciary duty owed by any director, officer or other employee of the Company to the Company or the Company's shareholders, (c) any action asserting a claim arising pursuant to any provision of the BCA or (d) any action asserting a claim governed by the internal affairs doctrine. This forum selection provision could apply to actions brought under provisions of the federal securities laws, including the Securities Act and the Exchange Act. The forum selection provision may limit a shareholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers, or other employees, which may discourage lawsuits with respect to such claims.

***The Company may not achieve the intended benefits of having a forum selection provision if it is found to be unenforceable.***

Our Charter includes a forum selection provision as described above. However, the enforceability of similar forum selection provisions in other companies' governing documents has been challenged in legal proceedings, and it is possible that in connection with any action a court could find the forum selection provision contained in our Charter to be inapplicable or unenforceable in such action. If a court were to find the forum selection provision to be inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, the Company may incur additional costs associated with resolving such action in other jurisdictions, which could adversely affect our business, financial condition and results of operations.

***The underwriter for this offering may waive or release parties to the lock-up agreements entered into in connection with this offering, which could adversely affect the price of our common stock.***

We, our directors and executive officers, the selling shareholders and certain of our other shareholders have each entered into lock-up agreements with respect to our and their respective shares of common stock. As restrictions on resale end, the market price of our common stock could decline if the holders of restricted shares sell them or are perceived by the market as intending to sell them. The underwriter, at any time and without notice, may release all or any portion of the shares of common stock subject to the foregoing lock-up agreements entered into in connection with this offering. If the restrictions under the lock-up agreements are waived, approximately 5.6 million shares of common stock will be available for sale into the market (or approximately 5.4 million shares if the underwriter's option to purchase additional shares is exercised in full), which could reduce the market value for our common stock.

## **USE OF PROCEEDS**

The selling shareholders identified in this prospectus supplement are selling the shares of common stock being sold in this offering, including any shares that may be sold in connection with the underwriter's option to purchase additional shares. Accordingly, we will not receive any proceeds from the sale of shares of common stock in this offering.

## **DIVIDENDS**

The declaration and payment of dividends, if any, will always be subject to the discretion of the board of directors, restrictions contained in our existing debt agreements and the requirements of Marshall Islands law. The timing and amount of any dividends declared will depend on, among other things, the Company's earnings, financial condition and cash requirements and availability, the ability to obtain debt and equity financing on acceptable terms as contemplated by the Company's growth strategy, the terms of its outstanding indebtedness and the ability of the Company's subsidiaries to distribute funds to it. The Company does not currently expect to pay dividends in the near term.

## SELLING SHAREHOLDERS

The following table presents information regarding the selling shareholders in this offering, the shares that the underwriter has agreed to purchase from the selling shareholders and the shares subject to the underwriter's option to purchase additional shares from the selling shareholders. We will not receive any proceeds from the sale of common stock by the selling shareholders. The table below is based on information provided to us by the selling shareholders. ## UNDERWRITING

Morgan Stanley & Co. LLC is acting as the sole underwriter of this offering. Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus supplement, the underwriter has agreed to purchase, and the selling stockholders have agreed to sell to the underwriter, an aggregate of 1,695,182 shares of our common stock.

The underwriter is offering the shares of common stock subject to its acceptance of the shares from the selling shareholders and subject to prior sale. The underwriting agreement provides that the obligations of the underwriter to pay for and accept delivery of the shares of common stock offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriter is obligated to take and pay for all of the shares of common stock offered by this prospectus supplement if any such shares are taken. However, the underwriter is not required to take or pay for the shares covered by the underwriter's option to purchase additional shares described below.

The underwriter initially proposes to offer part of the shares of common stock directly to the public at the offering price listed on the cover page of this prospectus supplement and part to certain dealers at a price that represents a concession not in excess of \$0.25 per share under the public offering price. After the initial offering of the shares of common stock, the offering price and other selling terms may from time to time be varied by the underwriter.

The selling shareholders have granted to the underwriter an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to 254,277 additional shares of common stock at the public offering price listed on the cover page of this prospectus supplement, less underwriting discounts and commissions. To the extent the option is exercised, the underwriter will become obligated, subject to certain conditions, to purchase about such additional shares of common stock.

The following table shows the per share and total public offering price, underwriting discounts and commissions, and proceeds before expenses to the selling shareholders. These amounts are shown assuming both no exercise and full exercise of the underwriter's option to purchase up to an additional 254,277 shares of common stock.

	Per Share	Total	
		No Exercise	Full Exercise
Public offering price	\$ 46.50	\$ 78,825,963	\$ 90,649,844
Underwriting discounts and commissions to be paid by the selling shareholders	\$ 1.63	\$ 2,763,147	\$ 3,177,618
Proceeds, before expenses, to selling shareholders	\$ 44.87	\$ 76,062,816	\$ 87,472,225

The estimated offering expenses payable by us, exclusive of the underwriting discounts and commissions, are approximately \$0.2 million.

Our common stock has been approved for quotation on the NASDAQ Global Select Market under the trading symbol "EGLE".

We, all of our directors and officers, the selling shareholders and certain of our other shareholders have agreed that, without the prior written consent of the underwriter, we and they will not, and will not publicly disclose an intention to, during the period ending 45 days after the date of this prospectus supplement (the "restricted period"):

- offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for shares of common stock; or

## [Table of Contents](#)

- enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the common stock,

whether any such transaction described above is to be settled by delivery of common stock or such other securities, in cash or otherwise. In addition, we and each such person agree that, without the prior written consent of the underwriter, we or such other person will not, during the restricted period, make any demand for, or exercise any right with respect to, the registration of any shares of common stock or any security convertible into or exercisable or exchangeable for common stock during the restricted period, other than a demand or exercise pursuant to an existing registration rights agreement, provided that such demand or exercise does not require the Company to file a registration statement under such registration rights agreement during the restricted period, and that the Company does not in fact file such registration statement during the restricted period.

The restrictions described in the immediately preceding paragraph do not apply to us with regards to:

- the sale of shares to the underwriter;
- the issuance by the Company of shares of common stock upon the exercise of an option or a warrant or the conversion of a security outstanding on the date of this prospectus supplement described herein;
- any shares of common stock or substantially similar security issued or options to purchase common stock or substantially similar security granted pursuant to our existing employee benefit plans;
- any shares of common stock or substantially similar security issued pursuant to any non-employee director stock plan; or
- facilitating the establishment of a trading plan on behalf of a shareholder, officer or director of the Company pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of common stock, provided that (i) such plan does not provide for the transfer of common stock during the restricted period and (ii) to the extent a public announcement or filing under the Exchange Act, if any, is required of or voluntarily made by the Company regarding the establishment of such plan, such announcement or filing shall include a statement to the effect that no transfer of common stock may be made under such plan during the restricted period.

Additionally, the restrictions described in the immediately preceding paragraph do not apply to our officers, directors and shareholders who have agreed to such restrictions with regards to:

- transactions by such persons relating to shares of common stock or other securities acquired in open market transactions after the completion of the offering of the shares; provided, that no filing under Section 16(a) of the Exchange Act is required or voluntarily made in connection with subsequent sales of the common stock or other securities acquired in such open market transactions;
- transfers of shares of common stock or any security convertible into or exchangeable for common stock as a bona fide gift or gifts, or for bona fide estate planning purposes, or by will, other testamentary document or intestacy;
- transfers of shares of common stock or any security convertible into or exchangeable for common stock to any member of such person's immediate family or to any trust or other legal entity for the direct or indirect benefit of such person or the immediate family of the person, or if held in a trust, to a trustor or beneficiary of the trust or to the estate of a beneficiary of such trust ("immediate family" meaning any relationship by blood, current or former marriage, domestic partnership or adoption, not more remote than first cousin);
- transfers or dispositions of shares of common stock or any security convertible into or exchangeable for common stock to a partnership, limited partnership, limited liability company or other entity of which such person and/or the immediate family of such person is the legal and beneficial owner of all of the outstanding equity securities or similar interests;

## [Table of Contents](#)

- to a nominee or custodian of a person or entity to whom a disposition or transfer would be permissible under the bullet points above;
- if the such person is a corporation, partnership, limited liability company, trust or other business entity, transfers or dispositions of shares of common stock or any security convertible into or exchangeable for common stock (i) to another corporation, partnership, limited liability company, trust or other business entity that is a direct or indirect affiliate (as defined in Rule 405 promulgated under the Securities Act) of the person, or to any investment fund or other entity controlling, controlled by, managing or managed by or under common control with the person or affiliates of the person (including, for the avoidance of doubt, where the person is a partnership, to its general partner or a successor partnership or fund, or any other funds managed by such general partnership, partnership or fund) or (ii) as part of a distribution, without any additional consideration or payment, to direct or indirect members, partners (general or limited), managers, shareholders or other equityholders of the person of shares of common stock or any security convertible into or exchangeable for common stock to limited partners or stockholders of the person, or to the estates of such members, partners, managers, shareholders or other equityholders;

- the exercise of options, other equity awards or warrants granted pursuant to plans, agreements or other arrangements described herein (including through incorporation by reference);
- any shares issued by us pursuant to the exercise of any warrants to purchase shares of common stock described herein (including through incorporation by reference); or
- transfers of shares of common stock or any security convertible into or exchangeable for common stock by operation of law or pursuant to an order of a court or regulatory agency;

provided, that in the case of the second through sixth, or tenth or eleventh bullet points above, each recipient of such shares shall sign and deliver a lock-up agreement substantially in the form executed by the transferrer of such shares; that in the case of the second through fifth and tenth bullet points above, no filing under Section 16(a) of the Exchange Act reporting a change in beneficial ownership of shares of common stock shall be required or shall be voluntarily made during the restricted period; and, that in the case of the sixth, eighth, eleventh and twelfth bullet points above, any filing required under Section 16(a) of the Exchange Act shall include a footnote explaining the circumstances around such transfer.

The underwriter, in its sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time.

In order to facilitate the offering of the common stock, the underwriter may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriter may sell more shares than it is obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriter

under the option. The underwriter can close out a covered short sale by exercising the option or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriter will consider, among other things, the open market price of shares compared to the price available under the option. The underwriter may also sell shares in excess of the option, creating a naked short position. The underwriter must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriter is concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriter may bid for, and purchase, shares of common stock in the open market to stabilize the price of the common stock. These activities may raise or maintain the market price of the common stock above independent market levels or prevent or retard a decline in the market price of the common stock. The underwriter is not required to engage in these activities and may end any of these activities at any time.

We, the selling shareholders and the underwriter have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

A prospectus supplement in electronic format may be made available on websites maintained by the underwriter, or selling group members, if any, participating in this offering.

The underwriter and its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriter and its affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

In addition, in the ordinary course of their various business activities, the underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and instruments. The underwriter and its affiliates may also make investment recommendations or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long or short positions in such securities and instruments.

## **ENFORCEABILITY OF CIVIL LIABILITIES**

We are incorporated under the laws of the Republic of the Marshall Islands. Certain of our directors, and officers reside outside the United States. In addition, a substantial portion of our assets and the assets of such directors and officers are located outside the United States. You may also have difficulty enforcing, both in and outside the United States, judgments you may obtain in United States courts against us or these persons in any action, including actions based upon the civil liability provisions of United States federal or state securities laws. Furthermore, there is substantial doubt that the courts of the Marshall Islands would enter judgments in original actions brought in those courts predicated on United States federal or state securities laws.

## Employment of Our Fleet

We use a variety of commercial strategies to employ our vessels, including time charter-out, voyage chartering, vessel and cargo arbitrage and time charter-in. We employ our fleet opportunistically in an effort to maximize earnings. We enter into charters and are continuously developing contractual relationships directly with cargo interests. These relationships and the related cargo contracts have the dual benefit of providing greater operational efficiencies and act as a balance to our naturally long position to the market. Notwithstanding the focus on voyage chartering, we consistently monitor the drybulk shipping market and, based on market conditions, will consider entering into long-term time charters when appropriate.

Our vessels operate worldwide within the trading limits imposed by governmental economic sanctions regimes and insurance terms and do not operate in countries or territories that are subject to United States, EU, United Kingdom or United Nations comprehensive country-wide or territory-wide sanctions.

## Management of Our Fleet

We perform the commercial and strategic management of our operating fleet through our indirectly wholly-owned subsidiary, Eagle Bulk Management LLC, a Marshall Islands limited liability company, which maintains its principal executive offices in Stamford, Connecticut and maintain subsidiaries in Copenhagen, Denmark and Singapore. We have also established an in-house technical management function to perform day-to-day operations and maintenance of our vessels.

## Business Strategy

Our vision is to be the leading integrated drybulk shipowner-operator through consistent outperformance and sustainable growth. We plan to achieve our vision by:

- *Focusing on the most attractive drybulk vessel segment.* We focus on owning and operating vessels within the midsize Supramax and Ultramax segment. We consider this vessel segment to be the most versatile amongst the various drybulk asset classes due to the size and specifications of Supramax and Ultramax ships. With a dwt size ranging from 50,000 to 65,000 metric tons and a length of approximately 200 meters, Supramax and Ultramax vessels are able to accommodate large cargo quantities, but call on the majority of ports around the globe. In addition, these vessels are equipped with onboard cranes and grabs, giving them the capability to load and discharge cargoes without the need for shore-based port equipment/infrastructure. We believe the versatility and flexibility of Supramax and Ultramax vessels provide for improved risk-adjusted returns.

- *Employing an active management strategy for fleet trading.* We employ an active management strategy for fleet employment with the objective of optimizing revenue performance and maximizing earnings on a risk managed basis. Through the execution of various commercial strategies employed across our global trading desks in the United States, Europe, and Asia, the Company has been able to achieve improved results and outperform the relevant market index on a consistent basis.
- *Executing on fleet renewal and growth.* Since 2016, we have executed on a fleet renewal program with a total of 34 vessel sales and purchases as of September 27, 2019. We have acquired 20 modern Ultramaxs, including the six Acquisition Vessels, and sold 14 of our older and less efficient Supramaxes. We believe that these transactions have led to an improvement in the makeup and earnings generation ability of our fleet, as well as maintain our average age of our fleet.
- *Performing technical management in-house.* We perform all technical management services relating to vessel maintenance, vessel repairs and crewing. We believe maintaining technical management in-house allows us to better optimize operating costs and vessel performance.
- *Implementing a prudent approach to balance sheet management.* We believe the long-term success of the Company is contingent on maintaining a prudent approach to balance sheet management, including working capital optimization, moderate leverage, diversifying capital sources, lowering cost of capital, limiting interest rate exposure, and optimizing debt profile/tenor.

A prospectus supplement will describe the specific types, amounts, prices, and detailed terms of any of these securities that we or the selling shareholders, as applicable, may offer and may describe certain risks associated with an investment in the securities. ## RISK FACTORS

An investment in our common stock involves a high degree of risk. Before making an investment in our common stock, you should carefully consider the risk factors and all of the other information included in this prospectus, the accompanying base prospectus and the documents incorporated into each by reference, including those in “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2018, filed with the Commission on March 13, 2019, as updated by annual, quarterly and other reports and documents we file with the Commission after the date of this prospectus and that are incorporated by reference herein. Please see the section of this prospectus entitled “Where You Can Find Additional Information—Information Incorporated by Reference.” The occurrence of one or more of those risk factors could adversely impact our business, financial condition or results of operations.

### Risks Related to Our Industry

**Charter rates for dry bulk vessels are volatile and have declined significantly the past years since their historic highs and may remain at low levels or further decrease in the future, which may adversely affect our earnings, revenue and profitability and our ability to comply with our loan covenants.**

The dry bulk shipping industry is cyclical with high volatility in charter rates and profitability. The degree of charter rate volatility among different types of dry bulk vessels has varied widely, and in recent years, charter rates for dry bulk vessels declined significantly from historically high levels. In the past, time charter and spot market charter rates for dry bulk carriers have declined below operating costs of vessels (including as recently as 2016). The Baltic Dry Index, or the “BDI”, a daily average of charter rates for key dry bulk routes published by the Baltic Exchange Limited, which has long been viewed as the main benchmark to monitor the movements of the dry bulk vessel charter market and the performance of the entire dry bulk shipping market, declined from a high of 11,793 in May 2008 to a low of 290 in February 2016, which represents a decline of 98%. In 2018, the BDI ranged from a low of 948 in April 2018, to a high of 1,774 in July 2018. As of September 28, 2019, the BDI stood at 1963.

Our ability to be profitable will depend upon a number of factors. Fluctuations in charter rates result from changes in the supply of and demand for vessel capacity and changes in the supply of and demand for the major commodities carried by water internationally. Because the factors affecting the supply of and demand for vessels are outside of our control and are unpredictable, the nature, timing, direction and degree of changes in industry conditions are also unpredictable. Since we charter our vessels principally in the spot market, we are exposed to the cyclicity and volatility of the spot market. Spot market charter rates may fluctuate significantly based upon available charters and the supply of and demand for seaborne shipping capacity, and we may be unable to keep our vessels fully employed in these short-term markets. Alternatively, charter rates available in the spot market may be insufficient to enable our vessels to operate profitably. A significant decrease in charter rates would also affect asset values and adversely affect our profitability and cash flows.

Factors that influence the demand for dry bulk vessel capacity include:

- supply of and demand for energy resources, commodities, consumer and industrial products;
- changes in the exploration or production of energy resources, commodities, consumer and industrial products;
- the location of regional and global exploration, production and manufacturing facilities;
- the location of consuming regions for energy resources, commodities, consumer and industrial products
- the globalization of production and manufacturing;
- global and regional economic and political conditions, including armed conflicts and terrorist activities, embargoes and strikes;

---

## [Table of Contents](#)

- natural disasters and weather;
- embargoes and strikes;
- disruptions and developments in international trade, including trade disputes or the imposition of tariffs on various commodities or finished goods;
- changes in seaborne and other transportation patterns, including the distance cargo is transported by sea;
- environmental and other legal regulatory developments;
- currency exchange rates; and

Factors that influence the supply of dry bulk vessel capacity include:

- the number of newbuilding orders and deliveries including slippage in deliveries;
- number of shipyards and ability of shipyards to deliver vessels;
- port and canal congestion;
- the scrapping rate of vessels;
- speed of vessel operation;
- vessel casualties;
- the number of vessels that are out of service, namely those that are laid-up, dry docked, awaiting repairs or otherwise not available for hire;
- availability of financing for new vessels;
- changes in national or international regulations that may effectively cause reductions in the carrying capacity of vessels or early obsolescence of tonnage; and
- changes in environmental and other regulations that may limit the useful lives of vessels.

In addition to the prevailing and anticipated freight rates, factors that affect the rate of newbuilding, scrapping and laying-up include newbuilding prices, secondhand vessel values in relation to scrap prices, costs of bunkers and other operating costs, costs associated with classification society surveys, normal maintenance costs, insurance coverage costs, the efficiency and age profile of the existing dry bulk fleet in the market, and government and industry regulation of maritime transportation practices, particularly environmental protection laws and regulations. These factors influencing the supply of and demand for shipping capacity are outside of our control, and we may not be able to correctly assess the nature, timing and degree of changes in industry conditions.

We anticipate that the future demand for our dry bulk vessels will be dependent upon economic growth in the world's economies, including China, Japan and India, seasonal and regional changes in demand, changes in the capacity of the global dry bulk fleet, including vessel scrapping and ordering rates of newbuildings, and the sources and supply of dry bulk cargo to be transported by sea. A decrease in the level of China's imports of raw materials or a decrease in trade globally could have a material adverse impact on our charterers' business and, in turn, could cause a material adverse impact on our results of operations, financial condition and cash flows. Global dry bulk supply is expected to remain low over the next two years, as a result of low orders placed over the past three years and the implementation of the IMO low sulfur regulation. Although global economic conditions have improved, there can be no assurance as to the sustainability of future economic growth. Adverse economic, political, social or other developments could have a material adverse effect on our business, financial condition and operating results.

If we are required to charter our vessels at a time when demand and charter rates are very low, we may not be able to secure employment for our vessels at all, or we may have to accept reduced and potentially unprofitable rates. If we are unable to secure profitable employment for our vessels, we may decide to lay-up some or all unemployed vessels until such time that charter rates become attractive again. During the lay-up period, we will continue to incur some expenditures, such as insurance and maintenance costs, for each such vessel. Additionally, before exiting lay-up, we will have to pay reactivation costs for any such vessel to regain its operational condition. As a result, our business, financial condition, results of operations and cash flows and our compliance with covenants in our credit facilities may be affected.

## **Risks Related to Our Operations**

### **World events could affect our operations and financial results.**

Past terrorist attacks, as well as the threat of future terrorist attacks around the world, continue to cause uncertainty in the world's financial markets and may affect our business, operating results and financial condition. Continuing conflicts, instability and other recent developments in the Middle East and elsewhere, including recent events involving vessels in the Strait of Hormuz and off the coast of Gibraltar, and the presence of U.S. or other armed forces in Afghanistan and Syria, may lead to additional acts of terrorism and armed conflict around the world, which may contribute to further economic instability in the global financial markets. Any of these occurrences could have a material adverse impact on our business, financial condition and results of operations.

For additional risks related to our operations, please see "Item 1A. Risk Factors-Industry Specific Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2018.

## **Risks Related to Our Common Stock**

### **The effect of the sale of any borrowed shares, which sales, if any, may be made to facilitate transactions by which investors in our convertible notes may hedge their investments, may be to lower the market price of our common stock.**

We have been advised that certain selling shareholders may sell borrowed shares (including under this prospectus) and use the resulting short position to establish or maintain their hedge with respect to their investments in our convertible notes. The existence of the share lending arrangements and the short sales of our common stock effected in connection therewith could cause the market price of our common stock to be lower over the term of the share lending arrangements than it would have been had we not entered into such arrangements, due to the effect of the increase in the number of our outstanding shares of common stock being traded in the market or otherwise.

### **Future sales, or availability for sale, of common stock by shareholders could depress the market price of our common stock.**

Sales of a substantial number of shares of our common stock in the public market, including sales by any selling shareholder, or the perception that large sales could occur could depress the market price of our common stock. Such future sales, or perception thereof, could also impact our ability to raise capital through future offerings of equity or equity-linked securities. As of September 27, 2019, we had 76,738,527 shares of common stock issued and outstanding.

To the extent we issue common stock upon conversion of our convertible notes, the conversion of some or all of our convertible notes will dilute the ownership interests of existing stockholders. If we elect to deliver shares to holders of our convertible notes with respect to the principal amount owed at maturity, the ownership interests of existing stockholders would be diluted. Any sales in the public market of common stock so issued could adversely affect prevailing market prices of our common stock. In addition, the existence of our convertible notes may encourage short selling by market participants because the conversion of our convertible notes could depress the price of our common stock.

## **Risks Related to Forum Selection**

**Our Third Amended and Restated Articles of Incorporation provide that the U.S. federal courts located in the Southern District of New York or, if such courts lack jurisdiction, the state courts of the State of New York, shall be the sole and exclusive forum for certain disputes between us and our shareholders, which could limit our shareholders' ability to obtain a favorable judicial forum for disputes with us or our directors, officers, or employees.**

Our Third Amended and Restated Articles of Incorporation, or our Articles of Incorporation, provide that, unless the Company consents in writing to the selection of an alternative forum, the U.S. federal courts located in the Southern District of New York or, if such court lacks jurisdiction, the state courts of the State of New York, shall be the sole and exclusive forum for (a) any derivative action or proceeding brought on behalf of the Company, (b) any action asserting a claim of a breach of a fiduciary duty owed by any director, officer or other employee of the Company to the Company or the Company's shareholders, (c) any action asserting a claim arising pursuant to any provision of the BCA or (d) any action asserting a claim governed by the internal affairs doctrine. This forum selection provision could apply to actions brought under provisions of the federal securities laws, including the U.S. Securities Act of 1933, as amended and the U.S. Securities and Exchange Act of 1934, as amended. The forum selection provision may limit a shareholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers, or other employees, which may discourage lawsuits with respect to such claims.

**The Company may not achieve the intended benefits of having a forum selection provision if it is found to be unenforceable.**

Our Articles of Incorporation include a forum selection provision as described above. However, the enforceability of similar forum selection provisions in other companies' governing documents has been challenged in legal proceedings, and it is possible that in connection with any action a court could find the forum selection provision contained in our Articles of Incorporation to be inapplicable or unenforceable in such action. If a court were to find the forum selection provision to be inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, the Company may incur additional costs associated with resolving such action in other jurisdictions, which could adversely affect our business, financial condition and results of operations.

## FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements within the meaning of Section 27A of the Securities Act, Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the Private Securities Litigation Reform Act of 1995, and are intended to be covered by the safe harbor provided for under these sections. These statements may include words such as “believe,” “estimate,” “project,” “intend,” “expect,” “plan,” “anticipate,” and similar expressions in connection with any discussion of the timing or nature of future operating or financial performance or other events. Forward-looking statements reflect management’s current expectations and observations with respect to future events and financial performance.

Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, our forward-looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected, or implied by those forward-looking statements. The principal factors that affect our financial position, results of operations and cash flows include, charter market rates, which have declined significantly from historic highs, periods of charter hire, vessel operating expenses and voyage costs, which are incurred primarily in U.S. dollars, depreciation expenses, which are a function of the cost of our vessels, significant vessel improvement costs and our vessels’ estimated useful lives, and financing costs related to our indebtedness. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors which could include the following: (i) changes in demand in the dry bulk market, including, without limitation, changes in production of, or demand for, commodities and bulk cargoes, generally or in particular regions; (ii) greater than anticipated levels of dry bulk vessel new building orders or lower than anticipated rates of dry bulk vessel scrapping; (iii) changes in rules and regulations applicable to the dry bulk industry, including, without limitation, legislation adopted by international bodies or organizations such as the International Maritime Organization and the European Union or by individual countries; (iv) actions taken by regulatory authorities including without limitation the U.S. Treasury Department’s Office of Foreign Assets Control; (v) changes in trading patterns significantly impacting overall dry bulk tonnage requirements; (vi) changes in the typical seasonal variations in dry bulk charter rates; (vii) changes in the cost of other modes of bulk commodity transportation; (viii) changes in general domestic and international political conditions; (ix) changes in the condition of the Company’s vessels or applicable maintenance or regulatory standards (which may affect, among other things, our anticipated dry docking costs); (x) significant deteriorations in charter hire rates from current levels or the inability of the Company to achieve its cost-cutting measures; and (xi) the outcome of legal proceeding in which we are involved; and other factors listed from time to time in our filings with the Commission. This discussion also includes statistical data regarding world dry bulk fleet and orderbook and fleet age. We generated some of this data internally, and some were obtained from independent industry publications and reports that we believe to be reliable sources. We have not independently verified this data nor sought the consent of any organizations to refer to their reports in this prospectus. We disclaim any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

We caution readers of this prospectus and any prospectus supplement not to place undue reliance on these forward-looking statements, which speak only as of their dates. We undertake no obligation to update or revise any forward-looking statements.

## **USE OF PROCEEDS**

Unless we specify otherwise in any prospectus supplement, we intend to use the net proceeds from the sale of securities offered by us pursuant to this prospectus for vessel acquisitions, capital expenditures, repayment of indebtedness, working capital, and general corporate purposes. We will not receive any of the proceeds from the sale or other disposition of the shares of common stock, Existing Warrants and Warrant Shares offered by the selling shareholders pursuant to this prospectus, although we will receive the proceeds from the exercise of the Existing Warrants. Any amounts we receive from such exercises will be used as described above. The holders of the Existing Warrants are not obligated to exercise the Existing Warrants and we cannot assure you that such holders will choose to exercise all or any of the Existing Warrants.

## DESCRIPTION OF CAPITAL STOCK

The following is a summary of the description of our capital stock and the material terms of our Articles of Incorporation, and second amended and restated by-laws, or the By-Laws. Because the following is a summary, it does not contain all of the information that you may find useful. For more complete information, you should read the description of capital stock and the material terms of our Articles of Incorporation and By-Laws contained in our Annual Report on Form 10-K, filed with the Commission on March 13, 2019, as updated by annual and other reports and documents we file with the Commission after the date of this prospectus and that are incorporated by reference herein, together with our Articles of Incorporation and By-Laws, copies of which have been filed as exhibits thereto. Please see the section of this prospectus entitled “Where You Can Find Additional Information.”

### Purpose

Our purpose, as stated in our Articles of Incorporation, is to engage in any lawful act or activity for which a corporation may now or hereafter be organized under the Business Corporations Act of the Marshall Islands, or the BCA. Our Articles of Incorporation and By-Laws do not impose any limitations on the ownership rights of our shareholders.

### Authorized Capitalization

Under our Articles of Incorporation, our authorized capital stock consists of 700 million shares of common stock, par value \$0.01 per share, of which 76,738,527 shares are issued and outstanding as of September 27, 2019, and 25 million shares of preferred stock, par value \$0.01 per share, or the preferred stock, of which no shares of preferred stock are issued and outstanding as of September 27, 2019. All of our issued and outstanding shares of common stock are in registered form.

### Description of Common Stock

Each outstanding share of common stock entitles the holder to one vote on all matters submitted to a vote of shareholders. Subject to preferences that may be applicable to any outstanding shares of preferred stock, if any, holders of shares of common stock are entitled to receive ratably all dividends, if any, declared by our board of directors out of assets or funds legally available for dividends. Upon our liquidation, dissolution or winding up, after payment in full of all amounts required to be paid to creditors and to the holders of preferred stock having liquidation preferences, if any, the holders of our common stock will be entitled to receive pro rata our remaining assets and funds available for distribution. Holders of common stock do not have conversion, redemption or preemptive rights to subscribe to any of our securities. The rights, preferences and privileges of holders of common stock are subject to the rights of the holders of any shares of preferred stock, which we may issue in the future.

### Description of Preferred Stock

Our Articles of Incorporation authorize our board of directors to establish one or more series of preferred stock and to determine, with respect to any series of preferred stock, the terms and rights of that series, including:

- the designation of the series;
- the number of shares of the series;
- the designation, preferences and relative, participating, optional or other special rights, if any, and any qualifications, limitations or restrictions of such series; provided that the total shares of preferred stock shall in no event have an aggregate liquidation preference of more than \$300 million; and
- the voting rights, if any, of the holders of the series.

It is not possible to state the actual effect of the authorization and issuance of one or more series of preferred stock upon the rights of holders of common stock until our board of directors determines the specific terms, rights and preferences of a series of preferred stock.

The material terms of any series of preferred stock that we offer through a prospectus supplement, as well as any material United States federal income tax considerations, will be described in that prospectus supplement.

### ***Authorized but Unissued Capital Stock***

The BCA does not require shareholder approval for any issuance of authorized shares. However, the listing requirements of Nasdaq, which will apply so long as our common stock is listed on Nasdaq, require shareholder approval of certain issuances equal to or exceeding 20% of the then outstanding voting power or then outstanding number of shares of our common stock.

### **Directors**

Our directors are elected by a majority of the votes cast by shareholders entitled to vote. There is no provision for cumulative voting.

Our board of directors is elected annually, and each director elected holds office for a one-year term and until his successor shall have been duly elected and qualified, except in the event of his death, resignation, removal, or the earlier termination of his term of office. Our board of directors has the authority to fix the amounts which shall be payable to the members of the board of directors for attendance at any meeting or for services rendered to us and for the reimbursement of reasonable and documented expenses.

### **Shareholder Meetings**

Under our By-Laws, annual shareholder meetings will be held at a time and place selected by our board of directors. The meetings may be held in or outside of the Marshall Islands. The Articles of Incorporation and By-Laws provide that, except as otherwise required by law, special meetings of shareholders may be called at any time only by (i) the lead director (if any), (ii) the chairman of the board of directors, (iii) the board of directors pursuant to a resolution duly adopted by a majority of the board stating the purpose or purposes thereof, or (iv) any one or more shareholders who beneficially owns, in the aggregate, 15% or more of the aggregate voting power of all then-outstanding shares of common stock and any other class or series of capital stock of the Company entitled to vote generally in the election of directors. The notice of any such special meeting is to include the purpose or purposes thereof, and the business transacted at the special meeting is limited to the purpose or purposes stated in the notice (or any supplement thereto). These provisions may impede the ability of shareholders to bring matters before a special meeting of shareholders. Our board of directors may set a record date between 15 and 60 days before the date of any meeting to determine the shareholders that will be eligible to receive notice and vote at the meeting.

### **Dissenters' Rights of Appraisal and Payment**

Under the BCA, our shareholders have the right to dissent from various corporate actions, including any merger or consolidation sale of all or substantially all of our assets not made in the usual course of our business, and receive payment of the fair value of their shares. In the event of any further amendment of our Articles of Incorporation, a shareholder also has the right to dissent and receive payment for his or her shares if the amendment alters certain rights in respect of those shares. The dissenting shareholder must follow the procedures set forth in the BCA to receive payment. In the event that we and any dissenting shareholder fail to agree on a price for the shares, the BCA procedures involve, among other things, the institution of proceedings in the high court of the Marshall Islands or in any appropriate court in any jurisdiction in which the Company's shares are primarily traded on a local or national securities exchange.

## **Shareholders' Derivative Actions**

Under the BCA, any of our shareholders may bring an action in our name to procure a judgment in our favor, also known as a derivative action, provided that the shareholder bringing the action is a holder of common stock both at the time the derivative action is commenced and at the time of the transaction to which the action relates.

## **Limitations on Liability and Indemnification of Officers and Directors**

The BCA authorizes corporations to limit or eliminate the personal liability of directors and officers to corporations and their shareholders for monetary damages for breaches of directors' fiduciary duties. Our By-Laws include a provision that eliminates the personal liability of directors for monetary damages for actions taken as a director to the fullest extent permitted by law.

Our By-Laws provide that we must indemnify our directors and officers to the fullest extent authorized by law. We are also expressly authorized to advance certain expenses (including attorneys' fees) to our directors and officers and carry directors' and officers' insurance providing indemnification for our directors, officers and certain employees for some liabilities. We believe that these indemnification provisions and insurance are useful to attract and retain qualified directors and executive offices.

The limitation of liability and indemnification provisions in our Articles of Incorporation and By-Laws may discourage shareholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our shareholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

There is currently no pending material litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the claim has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

## **Anti-takeover Effect of Certain Provisions of our Articles of Incorporation and By-Laws**

Several provisions of our Articles of Incorporation and By-Laws, which are summarized below, may have anti-takeover effects. These provisions are intended to avoid costly takeover battles, lessen our vulnerability to a hostile change of control and enhance the ability of our board of directors to maximize shareholder value in connection with any unsolicited offer to acquire us. However, these anti-takeover provisions could also discourage, delay or prevent

(1) the merger or acquisition of our Company by means of a tender offer, a proxy contest, or otherwise, that a shareholder may consider in its best interest and (2) the removal of incumbent officers and directors.

### ***Blank Check Preferred Stock***

Under the terms of our Articles of Incorporation, our board of directors has authority, without any further vote or action by our shareholders, to issue shares of blank check preferred stock; provided that the total shares of blank check preferred stock shall in no event have an aggregate liquidation preference of more than \$300 million. Our board of directors may issue shares of preferred stock on terms calculated to discourage, delay or prevent a change of control of our Company or the removal of our management.

### ***Election and Removal of Directors***

Our Articles of Incorporation prohibit cumulative voting in the election of directors. Our By-Laws require parties other than the board of directors to give advance written notice of nominations for the election of directors. Our Articles of Incorporation also provide that our directors may only be removed for cause upon the affirmative vote of a majority of the outstanding shares of our capital stock entitled to vote for the election of directors. Newly created directorships resulting from an increase in the number of directors and vacancies occurring on our board of directors for any reason may only be filled by a vote of a majority of the directors then in office, even if less than a quorum exists (except that a quorum is required if the vacancy results from an increase in the number of directors).

### ***Advance Notice Requirements for Shareholder Proposals and Director Nominations***

Our By-Laws provide that shareholders seeking to nominate candidates for election as directors or to bring business before an annual meeting of shareholders must provide timely notice of their proposal in writing to the corporate secretary. To be timely, a shareholder's notice will have to be received at our principal executive offices not less than 60 days nor more than 90 days prior to the anniversary date of the immediately preceding annual meeting of shareholders; provided, however, that in the event that the annual meeting is called for a date that is not within 30 days before or after such anniversary date, notice by the shareholder in order to be timely must be so received not later than the close of business on the 10th day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date of the annual meeting was made, whichever occurs first, in order for such notice by a shareholder to be timely. Our By-Laws also specify requirements as to the form and content of a shareholder's notice. These advance notice requirements, particularly the 60 to 90 day requirement, may impede shareholders' ability to bring matters before an annual meeting of shareholders or make nominations for directors at an annual meeting of shareholders.

### ***Action by Written Consent***

Our By-Laws provide that any action required or permitted to be taken by the shareholders may be effected only at a duly called annual or special meeting of the shareholders. Except as otherwise mandated by law, the ability of shareholders to consent in writing to the taking of any action is specifically denied.

### ***Certain Voting Requirements***

Our Articles of Incorporation provide that a two-thirds vote is required to amend or repeal certain provisions of our Articles of Incorporation and By-Laws, including those provisions relating to: the number and election of directors; filling of board vacancies; resignations and removals of directors; director liability and indemnification of directors; the power of shareholders to call special meetings; advance notice of director nominations and shareholder proposals; and amendments to our Articles of Incorporation and By-Laws. These supermajority provisions may discourage, delay or prevent the changes to our Articles of Incorporation or By-Laws.

### ***Registrar and Transfer Agent***

The registrar and transfer agent for our shares of common stock is Computershare Trust Company, N.A.

### ***Listing***

Our shares of common stock are listed on Nasdaq under the symbol "EGLE."

## DESCRIPTION OF DEBT SECURITIES

We may issue debt securities from time to time in one or more series, under one or more indentures, each dated as of a date on or prior to the issuance of the debt securities to which it relates. We may issue senior debt securities and subordinated debt securities pursuant to separate indentures, a senior indenture and a subordinated indenture, respectively, in each case between us and the trustee named in the indenture. These indentures will be filed either as exhibits to an amendment to this registration statement, or as an exhibit to an Exchange Act report that will be incorporated by reference to the registration statement or a prospectus supplement. We will refer to any or all of these reports as “subsequent filings.” The senior indenture and the subordinated indenture, as amended or supplemented from time to time, are sometimes referred to individually as an “indenture” and collectively as the “indentures.” Each indenture will be subject to and governed by the Trust Indenture Act of 1939, as amended. The aggregate principal amount of debt securities which may be issued under each indenture will be unlimited and each indenture will contain the specific terms of any series of debt securities or provide that those terms must be set forth in or determined pursuant to, an authorizing resolution, as defined in the applicable prospectus supplement, and/or a supplemental indenture, if any, relating to such series.

Certain of our subsidiaries may guarantee the debt securities we offer. Those guarantees may or may not be secured by liens, mortgages, and security interests in the assets of those subsidiaries. The terms and conditions of any such subsidiary guarantees, and a description of any such liens, mortgages or security interests, will be set forth in the prospectus supplement that will accompany this prospectus.

The following description of the terms of the debt securities sets forth certain general terms and provisions. The statements below are not complete and are subject to, and are qualified in their entirety by reference to, all of the provisions of the applicable indenture. The specific terms of any debt securities that we may offer, including any modifications of, or additions to, the general terms described below as well as any applicable material U.S. federal income tax considerations concerning the ownership of such debt securities will be described in the applicable prospectus supplement or supplemental indenture. Accordingly, for a complete description of the terms of a particular issue of debt securities, the general description of the debt securities set forth below should be read in conjunction with the applicable prospectus supplement and indenture, as amended or supplemented from time to time.

### General

Neither indenture limits the amount of debt securities which may be issued, and each indenture provides that debt securities may be issued up to the aggregate principal amount from time to time. The debt securities may be issued in one or more series. The senior debt securities will be unsecured and will rank in parity with all of our other unsecured and unsubordinated indebtedness. Each series of subordinated debt securities will be unsecured and subordinated to all present and future senior indebtedness. Any such debt securities will be described in an accompanying prospectus supplement.

You should read the subsequent filings relating to the particular series of debt securities for the following terms of the offered debt securities:

- the designation, aggregate principal amount and authorized denominations;
- the issue price, expressed as a percentage of the aggregate principal amount;
- the maturity date;
- the interest rate per annum, if any;
- if the offered debt securities provide for interest payments, the date from which interest will accrue, the dates on which interest will be payable, the date on which payment of interest will commence and the regular record dates for interest payment dates;

## Table of Contents

- any optional or mandatory sinking fund provisions or conversion or exchangeability provisions;
- the date, if any, after which and the price or prices at which the offered debt securities may be optionally redeemed or must be mandatorily redeemed and any other terms and provisions of optional or mandatory redemptions;
- if other than denominations of \$1,000 and any integral multiple thereof, the denominations in which offered debt securities of the series will be issuable;
- if other than the full principal amount, the portion of the principal amount of offered debt securities of the series which will be payable upon acceleration or provable in bankruptcy;
- any events of default not set forth in this prospectus;
- the currency or currencies, including composite currencies, in which principal, premium and interest will be payable, if other than the currency of the United States of America;
- if principal, premium or interest is payable, at our election or at the election of any holder, in a currency other than that in which the offered debt securities of the series are stated to be payable, the period or periods within which, and the terms and conditions upon which, the election may be made;
- whether interest will be payable in cash or additional securities at our or the holder's option and the terms and conditions upon which the election may be made;
- if denominated in a currency or currencies other than the currency of the United States of America, the equivalent price in the currency of the United States of America for purposes of determining the voting rights of holders of those debt securities under the applicable indenture;
- if the amount of payments of principal, premium or interest may be determined with reference to an index, formula or other method based on a coin or currency other than that in which the offered debt securities of the series are stated to be payable, the manner in which the amounts will be determined;
- any restrictive covenants or other material terms relating to the offered debt securities, which may not be inconsistent with the applicable indenture;
- whether the offered debt securities will be issued in the form of global securities or certificates in registered form;
- any terms with respect to subordination;
- any listing on any securities exchange or quotation system;
- additional provisions, if any, related to defeasance and discharge of the offered debt securities; and
- the applicability of any guarantees.

Unless otherwise indicated in subsequent filings with the Commission relating to the indenture, principal, premium and interest will be payable and the debt securities will be transferable at the corporate trust office of the applicable trustee. Unless other arrangements are made or set forth in subsequent filings or a supplemental indenture, principal, premium and interest will be paid by checks mailed to the holders at their registered addresses.

Unless otherwise indicated in subsequent filings with the Commission, the debt securities will be issued only in fully registered form without coupons, in denominations of \$1,000 or any integral multiple thereof. No service charge will be made for any transfer or exchange of the debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with these debt securities.

Some or all of the debt securities may be issued as discounted debt securities, bearing no interest or interest at a rate which at the time of issuance is below market rates, to be sold at a substantial discount below the stated principal amount. United States federal income consequences and other special considerations applicable to any discounted securities will be described in subsequent filings with the Commission relating to those securities.

We refer you to applicable subsequent filings with respect to any deletions or additions or modifications from the description contained in this prospectus.

### **Senior Debt**

We may issue senior debt securities under a senior debt indenture. These senior debt securities would rank on an equal basis with all our other unsecured debt except subordinated debt.

### **Subordinated Debt**

We may issue subordinated debt securities under a subordinated debt indenture. Subordinated debt would rank subordinate and junior in right of payment, to the extent set forth in the subordinated debt indenture, to all our senior debt (both secured and unsecured).

In general, the holders of all senior debt are first entitled to receive payment of the full amount unpaid on senior debt before the holders of any of the subordinated debt securities are entitled to receive a payment on account of the principal or interest on the indebtedness evidenced by the subordinated debt securities in certain events.

If we default in the payment of any principal of, or premium, if any, or interest on any senior debt when it becomes due and payable after any applicable grace period, then, unless and until the default is cured or waived or ceases to exist, we cannot make a payment on account of or redeem or otherwise acquire the subordinated debt securities.

If there is any insolvency, bankruptcy, liquidation or other similar proceeding relating to us or our property, then all senior debt must be paid in full before any payment may be made to any holders of subordinated debt securities.

Furthermore, if we default in the payment of the principal of and accrued interest on any subordinated debt securities that is declared due and payable upon an event of default under the subordinated debt indenture, holders of all our senior debt will first be entitled to receive payment in full in cash before holders of such subordinated debt can receive any payments.

Senior debt means:

- the principal, premium, if any, interest and any other amounts owing in respect of our indebtedness for money borrowed and indebtedness evidenced by securities, notes, debentures, bonds or other similar instruments issued by us, including the senior debt securities or letters of credit;
- all capitalized lease obligations;
- all hedging obligations;
- all obligations representing the deferred purchase price of property; and
- all deferrals, renewals, extensions and refundings of obligations of the type referred to above;
- but senior debt does not include:
- subordinated debt securities; or
- any indebtedness that by its terms is subordinated to, or ranks on an equal basis with, our subordinated debt securities.

## **Covenants**

Any series of offered debt securities may have covenants in addition to or differing from those included in the applicable indenture which will be described in subsequent filings prepared in connection with the offering of such securities, limiting or restricting, among other things:

- the ability of us or our subsidiaries to incur either secured or unsecured debt, or both;
- the ability to make certain payments, dividends, redemptions or repurchases;
- our ability to create dividend and other payment restrictions affecting our subsidiaries;
- our ability to make investments;
- mergers and consolidations by us or our subsidiaries;
- sales of assets by us;
- our ability to enter into transactions with affiliates;
- our ability to incur liens; and
- sale and leaseback transactions.

## **Modification of the Indentures**

Each indenture and the rights of the respective holders may be modified by us only with the consent of holders of not less than a majority in aggregate principal amount of the outstanding debt securities of all series under the respective indenture affected by the modification, taken together as a class. But no modification that:

- (1) changes the amount of securities whose holders must consent to an amendment, supplement or waiver;
- (2) reduces the rate of or changes the interest payment time on any security or alters its redemption provisions (other than any alteration to any such section which would not materially adversely affect the legal rights of any holder under the indenture) or the price at which we are required to offer to purchase the securities;
- (3) reduces the principal or changes the maturity of any security or reduces the amount of, or postpones the date fixed for, the payment of any sinking fund or analogous obligation;
- (4) waives a default or event of default in the payment of the principal of or interest, if any, on any security (except a rescission of acceleration of the securities of any series by the holders of at least a majority in principal amount of the outstanding securities of that series and a waiver of the payment default that resulted from such acceleration);
- (5) makes the principal of or interest, if any, on any security payable in any currency other than that stated in the security;
- (6) makes any change with respect to holders' rights to receive principal and interest, the terms pursuant to which defaults can be waived, certain modifications affecting shareholders or certain currency-related issues; or
- (7) waives a redemption payment with respect to any security or changes any of the provisions with respect to the redemption of any securities;

will be effective against any holder without his consent. Other terms as specified in subsequent filings may be modified without the consent of the holders.

## **Events of Default**

Each indenture defines an event of default for the debt securities of any series as being any one of the following events:

- default in any payment of interest when due which continues for 30 days;

## [Table of Contents](#)

- default in any payment of principal or premium when due;
- default in the deposit of any sinking fund payment when due;
- default in the performance of any covenant in the debt securities or the applicable indenture which continues for 60 days after we receive notice of the default;
- default under a bond, debenture, note or other evidence of indebtedness for borrowed money by us or our subsidiaries (to the extent we are directly responsible or liable therefor) having a principal amount in excess of a minimum amount set forth in the applicable subsequent filing, whether such indebtedness now exists or is hereafter created, which default shall have resulted in such indebtedness becoming or being declared due and payable prior to the date on which it would otherwise have become due and payable, without such acceleration having been rescinded or annulled or cured within 30 days after we receive notice of the default; and
- events of bankruptcy, insolvency or reorganization.

An event of default of one series of debt securities does not necessarily constitute an event of default with respect to any other series of debt securities.

There may be such other or different events of default as described in an applicable subsequent filing with respect to any class or series of offered debt securities.

In case an event of default occurs and continues for the debt securities of any series, the applicable trustee or the holders of not less than 25% in aggregate principal amount of the debt securities then outstanding of that series may declare the principal and accrued but unpaid interest of the debt securities of that series to be due and payable. Any event of default for the debt securities of any series which has been cured may be waived by the holders of a majority in aggregate principal amount of the debt securities of that series then outstanding.

Each indenture requires us to file annually after debt securities are issued under that indenture with the applicable trustee a written statement signed by two of our officers as to the absence of material defaults under the terms of that indenture. Each indenture provides that the applicable trustee may withhold notice to the holders of any default if it considers it in the interest of the holders to do so, except notice of a default in payment of principal, premium or interest.

Subject to the duties of the trustee in case an event of default occurs and continues, each indenture provides that the trustee is under no obligation to exercise any of its rights or powers under that indenture at the request, order or direction of holders unless the holders have offered to the trustee reasonable indemnity. Subject to these provisions for indemnification and the rights of the trustee, each indenture provides that the holders of a majority in principal amount of the debt securities of any series then outstanding have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee as long as the exercise of that right does not conflict with any law or the indenture.

### **Defeasance and Discharge**

The terms of each indenture provide us with the option to be discharged from any and all obligations in respect of the debt securities issued thereunder upon the deposit with the trustee, in trust, of money or U.S. government obligations, or both, which through the payment of interest and principal in accordance with their terms will provide money in an amount sufficient to pay any installment of principal, premium and interest on, and any mandatory sinking fund payments in respect of, the debt securities on the stated maturity of the payments in accordance with the terms of the debt securities and the indenture governing the debt securities. This right may only be exercised if, among other things, we have received from, or there has been published by, the United States Internal Revenue Service, or IRS, a ruling to the effect that such a discharge will not be deemed, or result in, a taxable event with respect to holders. This discharge would not apply to our obligations to register the transfer or exchange of debt securities, to replace stolen, lost or mutilated debt securities, to maintain paying agencies and hold moneys for payment in trust.

## **Defeasance of Certain Covenants**

The terms of the debt securities provide us with the right to omit complying with specified covenants and that specified events of default described in a subsequent filing will not apply. In order to exercise this right, we will be required to deposit with the trustee money or U.S. government obligations, or both, which through the payment of interest and principal will provide money in an amount sufficient to pay principal, premium, if any, and interest on, and any mandatory sinking fund payments in respect of, the debt securities on the stated maturity of such payments in accordance with the terms of the debt securities and the indenture governing such debt securities. We will also be required to deliver to the trustee an opinion of counsel to the effect that we have received from, or there has been published by, the IRS a ruling to the effect that the deposit and related covenant defeasance will not cause the holders of such series to recognize income, gain or loss for federal income tax purposes.

A subsequent filing may further describe the provisions, if any, of any particular series of offered debt securities permitting a discharge defeasance.

## **Subsidiary Guarantees**

Each of our current subsidiaries, each a 100 percent directly or indirectly owned subsidiary (the “guarantors”), will issue guarantees of the debt securities, if any of them issue guarantees, and such guarantees will be full and unconditional and will constitute the joint and several obligations of such guarantors. The guarantors are our sole subsidiaries, other than Anemi Maritime Services S.A., which is minor as understood by Rule 3-10(h) of Regulation S-X. The Company has no assets or operations independent of its subsidiaries.

The terms and conditions of the subsidiary guarantees offered for sale, if any, will be set forth in the applicable prospectus supplement. Unless we indicate differently in the applicable prospectus supplement, if any of our subsidiaries guarantee any of our debt securities that are subordinated to any of our senior indebtedness, then the subsidiary guarantees will be subordinated to the senior indebtedness of such subsidiary to the same extent as our debt securities are subordinated to our senior indebtedness.

## **Global Securities**

We expect that the following provisions will apply to depository arrangements for any portion of a series of debt securities to be represented by a global security. Any additional or different terms of the depository arrangement will be described in an applicable subsequent filing.

Upon the issuance of any global security, and the deposit of that global security with or on behalf of the depository for the global security, the depository will credit, on its book-entry registration and transfer system, the principal amounts of the debt securities represented by that global security to the accounts of institutions that have accounts with the depository or its nominee. The accounts to be credited will be designated by the underwriters or agents engaging in the distribution of the debt securities or by us, if the debt securities are offered and sold directly by us. Ownership of beneficial interests in a global security will be limited to participating institutions or persons that may hold interest through such participating institutions. Ownership of beneficial interests by participating institutions in the global security will be shown on, and the transfer of the beneficial interests will be effected only through, records maintained by the depository for the global security or by its nominee. Ownership of beneficial interests in the global security by persons that hold through participating institutions will be shown on, and the transfer of the beneficial interests within the participating institutions will be effected only through, records maintained by those participating institutions. The laws of some jurisdictions may require that purchasers of securities take physical delivery of the securities in certificated form. The foregoing limitations and such laws may impair the ability to transfer beneficial interests in the global securities.

So long as the depository for a global security, or its nominee, is the registered owner of that global security, the depository or its nominee, as the case may be, will be considered the sole owner or holder of the debt

## [Table of Contents](#)

securities represented by the global security for all purposes under the applicable indenture. Unless otherwise specified in an applicable subsequent filing and except as specified below, owners of beneficial interests in the global security will not be entitled to have debt securities of the series represented by the global security registered in their names, will not receive or be entitled to receive physical delivery of debt securities of the series in certificated form and will not be considered the holders thereof for any purposes under the indenture. Accordingly, each person owning a beneficial interest in the global security must rely on the procedures of the depository and, if such person is not a participating institution, on the procedures of the participating institution through which the person owns its interest, to exercise any rights of a holder under the indenture.

The depository may grant proxies and otherwise authorize participating institutions to give or take any request, demand, authorization, direction, notice, consent, waiver or other action which a holder is entitled to give or take under the applicable indenture. We understand that, under existing industry practices, if we request any action of holders or any owner of a beneficial interest in the global security desires to give any notice or take any action a holder is entitled to give or take under the applicable indenture, the depository would authorize the participating institutions to give the notice or take the action, and participating institutions would authorize beneficial owners owning through such participating institutions to give the notice or take the action or would otherwise act upon the instructions of beneficial owners owning through them.

Unless otherwise specified in applicable subsequent filings, payments of principal, premium and interest on debt securities represented by a global security registered in the name of a depository or its nominee will be made by us to the depository or its nominee, as the case may be, as the registered owner of the global security.

We expect that the depository for any debt securities represented by a global security, upon receipt of any payment of principal, premium or interest, will credit participating institutions' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of the depository. We also expect that payments by participating institutions to owners of beneficial interests in the global security held through those participating institutions will be governed by standing instructions and customary practices, as is now the case with the securities held for the accounts of customers registered in street names, and will be the responsibility of those participating institutions. None of us, the trustees or any agent of ours or the trustees will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial interests in a global security, or for maintaining, supervising or reviewing any records relating to those beneficial interests.

Unless otherwise specified in the applicable subsequent filings, a global security of any series will be exchangeable for certificated debt securities of the same series only if:

- the depository for such global securities notifies us that it is unwilling or unable to continue as depository or such depository ceases to be a clearing agency registered under the Exchange Act and, in either case, a successor depository is not appointed by us within 90 days after we receive the notice or become aware of the ineligibility;
- we in our sole discretion determine that the global securities shall be exchangeable for certificated debt securities; or
- there shall have occurred and be continuing an event of default under the applicable indenture with respect to the debt securities of that series.

Upon any exchange, owners of beneficial interests in the global security or securities will be entitled to physical delivery of individual debt securities in certificated form of like tenor and terms equal in principal amount to their beneficial interests, and to have the debt securities in certificated form registered in the names of the beneficial owners, which names are expected to be provided by the depository's relevant participating institutions to the applicable trustee.

In the event that the Depository Trust Company, or DTC, acts as depository for the global securities of any series, the global securities will be issued as fully registered securities registered in the name of Cede & Co., DTC's partnership nominee.

DTC is a member of the U.S. Federal Reserve System, a limited-purpose trust company under New York State banking law and a registered clearing agency with the Commission. Established in 1973, DTC was created to reduce costs and provide clearing and settlement efficiencies by immobilizing securities and making "book-entry" changes to ownership of the securities. DTC provides securities movements for the net settlements of the National Securities Clearing Corporation, or NSCC, and settlement for institutional trades (which typically involve money and securities transfers between custodian banks and broker/dealers), as well as money market instruments.

DTC is a subsidiary of The Depository Trust & Clearing Company, or DTCC. DTCC is a holding company established in 1999 to combine DTC and NSCC. DTCC, through its subsidiaries, provides clearing, settlement and information services for equities, corporate and municipal bonds, government and mortgage backed securities, money market instruments and over-the-counter derivatives. In addition, DTCC is a leading processor of mutual funds and insurance transactions, linking funds and carriers with their distribution networks. DTCC's customer base extends to thousands of companies within the global financial services industry. DTCC serves brokers, dealers, institutional investors, banks, trust companies, mutual fund companies, insurance carriers, hedge funds and other financial intermediaries – either directly or through correspondent relationships.

DTCC is industry-owned by its customers who are members of the financial community, such as banks, broker/dealers, mutual funds and other financial institutions. DTCC operates on an at-cost basis, returning excess revenue from transaction fees to its member firms. All services provided by DTC are regulated by the Commission.

The 2014 DTCC Board of Directors is composed of 19 directors serving one-year terms. Thirteen directors are representatives of clearing agency participants, including international broker/dealers, custodian and clearing banks, and investment institutions; of these, two directors are designated by DTCC's preferred shareholders, which are NYSE Euronext and FINRA. Three directors are from non-participants. The remaining three are the chairman and chief executive officer, president, and chief operating officer of DTCC. All of the Board members except those designated by the preferred shareholders are elected annually.

To facilitate subsequent transfers, the debt securities may be registered in the name of DTC's nominee, Cede & Co. The deposit of the debt securities with DTC and their registration in the name of Cede & Co. will effect no change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the debt securities. DTC's records reflect only the identity of the direct participating institutions to whose accounts debt securities are credited, which may or may not be the beneficial owners. The participating institutions remain responsible for keeping account of their holdings on behalf of their customers.

Delivery of notices and other communications by DTC to direct participating institutions, by direct participating institutions to indirect participating institutions, and by direct participating institutions and indirect participating institutions to beneficial owners of debt securities are governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect.

Neither DTC nor Cede & Co. consents or votes with respect to the debt securities. Under its usual procedures, DTC mails a proxy to the issuer as soon as possible after the record date. The proxy assigns Cede & Co.'s consenting or voting rights to those direct participating institutions to whose accounts the debt securities are credited on the record date.

If applicable, redemption notices shall be sent to Cede & Co. If less than all of the debt securities of a series represented by global securities are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participating institutions in that issue to be redeemed.

To the extent that any debt securities provide for repayment or repurchase at the option of the holders thereof, a beneficial owner shall give notice of any option to elect to have its interest in the global security repaid by us, through its participating institution, to the applicable trustee, and shall effect delivery of the interest in a global security by causing the direct participating institution to transfer the direct participating institution's interest in the global security or securities representing the interest, on DTC's records, to the applicable trustee. The requirement for physical delivery of debt securities in connection with a demand for repayment or repurchase will be deemed satisfied when the ownership rights in the global security or securities representing the debt securities are transferred by direct participating institutions on DTC's records.

DTC may discontinue providing its services as securities depository for the debt securities at any time. Under such circumstances, in the event that a successor securities depository is not appointed, debt security certificates are required to be printed and delivered as described above.

We may decide to discontinue use of the system of book-entry transfers through the securities depository. In that event, debt security certificates will be printed and delivered as described above.

## DESCRIPTION OF WARRANTS

### General

We may issue warrants to purchase our equity securities or securities of third parties or other rights, including rights to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing. Warrants may be issued independently or together with any other securities and may be attached to, or separate from, such securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a warrant agent. The terms of any warrants to be issued and a description of the material provisions of the applicable warrant agreement will be set forth in the applicable prospectus supplement.

The applicable prospectus supplement will describe the following terms of any warrants in respect of which this prospectus is being delivered:

- the title of such warrants;
- the aggregate number of such warrants;
- the price or prices at which such warrants will be issued;
- the currency or currencies, in which the price of such warrants will be payable;
- the securities or other rights, including rights to receive payment in cash or securities based on the value, rate or price of one or more specified commodities, currencies, securities or indices, or any combination of the foregoing, purchasable upon exercise of such warrants;

As a result, we have, directly or indirectly, informed the selling shareholders that Regulation M, promulgated under the Exchange Act, may apply to sales by the selling shareholders in the market. The selling shareholders may agree to indemnify any broker, dealer or agent that participates in transactions involving the sale of shares of our common stock against certain liabilities, including liabilities arising under the Securities Act.

### **ENFORCEABILITY OF CIVIL LIABILITIES**

We are incorporated under the laws of the Republic of the Marshall Islands. Certain of our directors, and officers reside outside the United States. In addition, a substantial portion of our assets and the assets of such directors and officers are located outside the United States. You may also have difficulty enforcing, both in and outside the United States, judgments you may obtain in United States courts against us or these persons in any action, including actions based upon the civil liability provisions of United States federal or state securities laws. Furthermore, there is substantial doubt that the courts of the Marshall Islands would enter judgments in original actions brought in those courts predicated on United States federal or state securities laws.
